Dear Sir or Madam

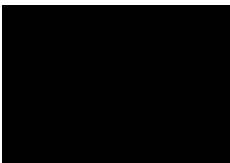

Central Lincolnshire Local Plan – Proposed Main Modifications Consultation

The Defence Infrastructure Organisation, on behalf of the Ministry of Defence (MOD) wishes to respond to the above consultation, more specifically to Modifications MM/73 and MM/74.

Given the size and location of MOD sites within the plan area, should a decision be made by the MOD to dispose of a site within the plan period, the proposed amendments within MM/73 and MM/74 could potentially result in a large, brownfield, former public sector site lying vacant.

With respect to Modification MM/74, it is considered that the wording “...where the increase in population is significant” is not effective as the word “significant” is highly subjective. Further clarification needs to be provided within the modification in relation to how this term is to be defined and assessed.

Yours faithfully

Jodie McCabe BSc (Hons) MA MRTPI
Senior Town Planner, Environment & Planning Support
