Subject: Central Lincolnshire Local Plan Proposed Main Modifications

Categories: Acknowledgement sent

Dear Mr Kay,

Thank you for consulting Natural England on the main modifications to the Central Lincolnshire Local Plan by your letter of 23rd January 2017. We would like to make the following comment:

MM/23 and MM/26 - Natural England welcomes these modifications which add the consideration of the ecosystem services approach in respect of major developments within both the explanatory text (5.6.3) and the policy wording of policy LP21: Biodiversity & Geodiversity. This addition reflects the advice set out in paragraph 109 of the National Planning Policy Framework and is therefore considered sound.

If you would like to discuss this matter further please do not hesitate to contact me.

Regards

Roslyn Deeming

We are here to secure a healthy natural environment for people to enjoy, where wildlife is protected and England's traditional landscapes are safeguarded for future generations.

Natural England offers two chargeable services – The Discretionary Advice Service (DAS) provides pre-application, pre-determination and post-consent advice on proposals to developers and consultants as well as pre-licensing species advice and pre-assent and consent advice. The Pre-submission Screening Service (PSS) provides advice for protected species mitigation licence applications.

These services help applicants take appropriate account of environmental considerations at an early stage of project development, reduce uncertainty, reduce the risk of delay and added cost at a later stage, whilst securing good results for the natural environment.

In an effort to reduce Natural England's carbon footprint, I will, wherever possible, avoid travelling to meetings and attend via audio, video or web conferencing.
