# Appendix 1 New 11A of LP 11 Affordable Housing

Option 5. Propose to modify policy to change 1000 sq metres to reflect a higher % for small sites

It seems government policy will require this to satisfy need. Affordable does NOT mean built at a loss, = Prefabrication.

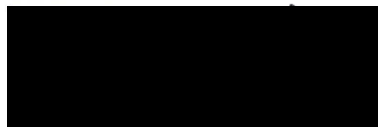

Policy LP 4 Para 6 Does NOT establish any identified policy for affordable housing alongside the 4 dwellings or % growth.

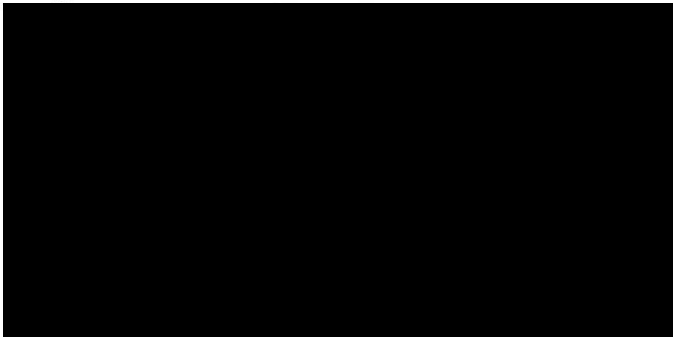

Some sites could well be ALL affordable, i.e. prefabricated sites etc. The total of 180 dwellings for villages will NOT be accepted by Government future policy.

LP 11 increasing affordable units from 4 < 11 is supported and may be supported by the housing minister, but again prefabricated units to provide a roof for families will be prioritised. Policy = Votes

Yours faithfully
