

**Central Lincolnshire Five Year Land Supply Report
1 April 2018 to 31 March 2023**

(Published January 2018)

1. INTRODUCTION

- 1.1. The National Planning Policy Framework (NPPF)¹ requires local planning authorities to identify and update annually a supply of specific deliverable sites sufficient to provide five years' worth of housing against their housing requirements.
- 1.2. This report sets out the five year land supply position for Central Lincolnshire for the period 2018 to 2023. The 'current year' (2017/18) is not used in the calculation of the five year supply. This is to ensure that at any point during the current year the Five Year Land Supply Report will include a full five year supply of land.
- 1.3. Appendix 1 provides a summary of all sites and the predicted delivery rates during the five year period. This is based on monitoring data as at 31 March 2017 and as provided by each district (North Kesteven, West Lindsey and City of Lincoln) which make up Central Lincolnshire.

2. FIVE YEAR REQUIREMENT

- 2.1. The Central Lincolnshire Local Plan, which was adopted on 28 April 2017, identifies a housing requirement for 36,960 dwellings between 2012 and 2036 (or 1,540 dwellings per year over the 24 year plan period). This is based on evidence in the Strategic Housing Market Assessment (SHMA) July 2015.
- 2.2. **The basic five year land supply requirement between 2012 and 2036 is therefore 7,700 dwellings**, as summarised in Table 1.

Table 1: The Basic Five Year Land supply requirement 2018 to 2023

a	Housing Requirement 1 April 2012 to 31 March 2036 (24 year period)	36,960	
b	Average per year	1,540	a ÷ 24
c	Basic five year requirement	7,700	b x 5

- 2.3. However, account must be taken of the completions between 1 April 2012 and 31 March 2017, and any under or over-supply during that period. Between 1 April 2012 and 31 March 2017 a total of 4,691 dwellings were completed as is shown in Table 2 below.

Table 2: Completions 2012 to 2017

	2012/13	2013/14	2014/15	2015/16	2016/17	Total
City of Lincoln	233	236	166	235	188	1,058
West Lindsey	256	289	378	284	300	1,507
North Kesteven	348	379	458	473	468	2,126
Completions	837	904	1,002	992	956	4,691

¹ NPPF Paragraph 47

(https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/6077/2116950.pdf)

- 2.4. This represents an undersupply of 3,009 dwellings when compared against the basic requirement of 1,540 dwellings per year.
- 2.5. An estimate of the supply against the requirement for the current year 2017/18 also needs to be factored in. It is estimated that 992 dwellings will be delivered in the current year (2017/18). This represents an undersupply of 548 dwellings when compared against the requirement for 1,540.
- 2.6. The shortfall will need to be added onto the housing requirement. During the examination of the Central Lincolnshire Local Plan, the Inspectors approved the use of the 'Liverpool' method of dealing with the shortfall in Central Lincolnshire. This means that the shortfall can be spread across the remaining years of the plan period to 2036. When the total shortfall from 2012-2018 of 3,557 dwellings is spread across the remaining years of the plan period from 2018/19 – 2035/36 this means that 198 dwellings per year (rounded from 197.6 dwellings per year) should be added to the annualised Objectively Assessed Housing Need of 1,540 dwellings to give a new requirement of 1,738 dwellings per year. Over the five year period this adds an additional 988 dwellings to the requirement increasing it to 8,668 as is demonstrated in Table 3 below.

Table 3: Undersupply 2012 to 2017

d	Net completions 1 April 2012 to 31 March 2017 (5 year period)	4,691	See Table 2
e	Target delivery for 1 April 2012 to 31 March 2017 (5 year period)	7,700	b x 5
f	Surplus or shortfall for 2012 to 2017	-3,009	d - e
g	Estimated completions current year (2017/18)	992	See table 5
h	Estimated difference for 17/18 compared with 1,540 requirement	-548	g - b
i	Total surplus / shortfall 2012 to 2018	-3557	f + h
j	Amount of shortfall to be included in the five year requirement	988	(i / 18) x 5
k	Five Year requirement taking into account shortfall 2012-17 and anticipated shortfall in 2017-18	8,688	c + j

- 2.7. However, once the five year requirement has been calculated, paragraph 47 of the NPPF then requires local authorities to identify a 5% buffer to ensure choice and competition in the market, and where there has been a record of persistent under-delivery of housing, this should be increased to 20%. It is made clear in the NPPF that this additional requirement is moved from further in the plan period and not an additional requirement for more housing.
- 2.8. As set out in Table 2 the Central Lincolnshire Authorities have delivered a total 4,691 dwellings over the last five years, this equates to an average of 938 dwellings per year. This represents a shortfall when compared to the basic requirement of 1,540 per year.

- 2.9. Whilst national guidance is unclear on the matter, it can be argued that Central Lincolnshire has, persistently underdelivered and therefore are required to include an additional 20% buffer (rather than 5%). As the 'Liverpool' method is being applied in Central Lincolnshire this means that the 20% buffer should also be applied to the part of the shortfall that is included in the five year period

Table 4: Five year land supply including backlog and twenty percent buffer

l	Twenty percent buffer	1,738	$k \times 0.20$
m	Total five year land supply requirement taking into account twenty percent buffer	10,426	$k + l$
n	Average per year	2,085	$m \div 5$

- 2.10. **The five year land supply requirement for 2017 to 2022 is therefore 10,426 dwellings.**

3. FIVE YEAR SUPPLY

- 3.1. For a site to be considered deliverable the NPPF requires that the site '*should be available now, with a realistic prospect that housing will be delivered on the site within five years and in particular that development of the site is viable*'.²
- 3.2. A deliverable site can include:
- Sites under construction
 - Sites with full planning permission, but development has not started
 - Sites where there is a resolution to grant planning permission
 - Sites with outline planning permission
 - Sites allocated in an adopted Local Plan
 - Sites in an emerging Local Plan
- 3.3. The Central Lincolnshire Local Plan includes residential site allocations. The government's Planning Practice Guidance (PPG) states that '*Deliverable sites for housing could include those that are allocated for housing in the development plan and sites with planning permission (outline or full that have not been implemented) unless there is clear evidence that schemes will not be implemented within 5 years*'.³
- 3.4. The Central Lincolnshire Five Year Land Supply is made up of sites that accord with the NPPF requirements including sites with permission and sites allocated in the adopted Local Plan.
- 3.5. Appendix 1 provides a list of all sites included in the five year supply and the expected delivery rate. Where a site already has planning permission, the dwelling figure is that for which permission was granted. Where a site is under construction, the outstanding dwelling figure shown is the remaining number still to be completed (at 1 April 2017) in accordance with the permission. For sites that are allocated but do not yet have

² Footnote 11 of the NPPF page 12

³ PPG Paragraph: 031 Reference ID: 3-031-20140306

planning permission the figure used is the ‘indicative dwelling’ set out in the adopted Central Lincolnshire Local Plan, unless through other discussions with land owners or through a pre-application discussion or a live planning application it is clear that an alternative capacity is more appropriate.

WINDFALL ALLOWANCE

3.6. The NPPF⁴ states that ‘*local planning authorities may make an allowance for windfall sites in the five year supply if they have compelling evidence that sites have consistently become available*’. The Local Plan allocates sites of 25 dwellings or more, therefore there is justification for including a windfall allowance for small sites below 25. The inclusion of these sources of windfall were endorsed by the Local Plan Inspectors.

3.7. This windfall allowance can be divided into two categories:

Small sites in the Lincoln urban area:

3.8. An allowance of 75 dwellings per year for small sites, starting in 2019/20, is allowed for in the Lincoln urban area.

3.9. This assumption covers small sites across the Lincoln Urban Area and it is based on previous completions on small sites solely within the administrative boundary of City of Lincoln. In the City of Lincoln sites of fewer than 25 dwellings have made up, and continue to make up, an important part of the land supply. The historic delivery on these sites is as follows:

06/07	07/08	08/09	09/10	10/11	11/12	12/13	13/14	14/15	15/16	16/17
113	128	187	102	88	257	75	98	104	136	101

3.10. This shows the consistency at which small sites come forward in the City of Lincoln with 75 dwellings being the smallest across this 11 year period, significantly below the mean average of 126 dwellings. Furthermore, this allowance does not include delivery on small sites in parts of the Lincoln urban area which are within North Kesteven and West Lindsey and for which Local Plan policies would, in principle, encourage residential development on suitable small sites, and therefore could reasonably be assumed to come forward.

3.11. No windfall allowance on these small sites are included in years 2017/18 and 2018/19 as it is assumed that they would already have planning permission and therefore have already been accounted for in the commitment data.

⁴ NPPF Paragraph 48

Small sites in smaller settlements and the rural area:

- 3.12. Under Policies LP2 and LP4 of the adopted Local Plan some development on small sites is supported in principle on suitable sites up to an assigned growth level for each 'Medium Village' and 'Small Village' in the settlement hierarchy. This is a valuable element of the supply and is therefore appropriate to include in the five year supply as windfall. It should be noted that these growth levels are not a target for small and medium villages, but instead place a limit on what level of growth would be acceptable in total in a settlement across the plan period, should all other policy requirements be satisfied and the site be deemed appropriate for the proposed development.
- 3.13. In order to include a windfall allowance from this source, the remaining growth level at the end of the current monitoring year (2016/17) for all Medium Villages and Small Villages has been established and this has been distributed evenly across the remaining years of the plan period.
- 3.14. No windfall allowance on these small sites are included in years 2017/18 and 2018/19 as it is assumed that they would already have planning permission and therefore have already been accounted for in the commitment data.
- 3.15. The total remaining growth in Small Villages and Medium Villages at 1 April 2017 was 1,887 dwellings. When aggregated across the remaining 17 years of the plan period (when 2017/18 and 2018/19 are excluded) this gives an allowance of 111 dwellings per year. Whilst this approach takes the entire remaining growth level across all villages and spreads it across the plan period, the delivery of the plan is not reliant on the growth levels being achieved in all settlements.
- 3.16. No other windfall allowances have been made, for growth from small sites in any other towns or villages (levels 2-4 of the settlement hierarchy) or in hamlets (level 7 of the hierarchy) despite the fact that the Local Plan policies provide in-principle support for some development in suitable locations in many of these settlements.
- 3.17. The overall windfall allowance (at 186 dwellings per year) across three council areas is therefore considered a conservative estimate, and highly likely to be exceeded in practice. It is therefore justified to allow for this amount in terms of calculating the five year land supply.

4. CALCULATING THE FIVE YEAR SUPPLY

- 4.1. The following table provides a summary of the five year supply of deliverable housing sites. The information is correct at 31 March 2017. Full details are set out in Appendix 1.

Table 5: Summary of Five Year Supply

Type of permission	2017/18 current year	2018/19 Yr 1	2019/20 Yr 2	2020/21 Yr 3	2021/22 Yr 4	2022/23 Yr 5	Estimated Total in five years
Sites with permission	992	1,832	1,816	1,518	1,494	1,334	7,994
Local Plan Site Allocations	0	35	408	872	1,311	1,543	4,169
Small sites windfall allowance in Lincoln city	0	0	75	75	75	75	300
Small sites windfall allowance in rural area	0	0	111	111	111	111	444
Total	992	1,867	2,410	2,576	2,991	3,063	12,907

- 4.2. The five year land supply results are set out in the following table.

Table 6: Five Year Supply

o	Estimate of five year land supply	12,907	See Table 5
p	Total (year)	6.19 years	o / n

- 4.3. The results show that the Central Lincolnshire Authorities have sufficient land to more than meet the five year requirement of 10,426 dwellings and can demonstrate a 6.19 year supply – a surplus of 2,481 dwellings.
