## 1. INTRODUCTION

- 1.1. The National Planning Policy Framework (NPPF) includes a requirement for local planning authorities to identify and update annually a supply of specific deliverable sites sufficient to provide five years' worth of housing against their housing requirements.
- 1.2. This report sets out the five year land supply position for Central Lincolnshire for the period 2020 to 2025. The 'current year' (2019/20) is not used in the calculation of the five year supply. This is to ensure that at any point during the current year the Five Year Land Supply Report will include a full five year supply of land. This report is based on monitoring data as at 31 March 2019 and as provided by each district within Central Lincolnshire.
- 1.3. This report sets out the details of:
  - the national and local policy context for calculating the five year supply;
  - the housing requirement for Central Lincolnshire during the five year period taking into account any necessary past undersupply and buffers as required by national policy;
  - the anticipated supply of homes across Central Lincolnshire in the five year period; and
  - the calculation of the five year housing land supply position for Central Lincolnshire.

## 2. POLICY CONTEXT

### NATIONAL CONTEXT

- 2.1. The NPPF was originally published in 2012 and was subsequently revised in July 2018, with some further minor amendments in February 2019. The revised NPPF included substantive amendments to the policy requirements in relation to housing land supply and it also introduced a number of other new policy requirements relating to plan-making and decision taking.
- 2.2. Paragraph 73 of the NPPF requires local planning authorities to identify and update annually a supply of "*specific, deliverable sites sufficient to provide a minimum of five years worth of housing against their housing requirement set out in adopted strategic policies.*"
- 2.3. The NPPF goes on to define what is to be considered 'deliverable' in its glossary:

*"To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:*

*a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be*

*delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).*

*b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.”*

2.4. Paragraph 73 also requires local planning authorities to “*include a buffer (moved forward from later in the plan period) of:*

- *5% to ensure choice and competition in the market for land; or*
- *10% where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year; or*
- *20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of achieving the planned supply.”*

2.5. The NPPF stipulates in footnote 39 that the 20% buffer in option c) is measured against the Housing Delivery Test from November 2018, where this indicates that delivery was below 85% of the housing requirement.

2.6. The NPPF also allows for incorporation of a windfall allowance in the five year period in paragraph 70, where there is compelling evidence that they will provide a reliable source of supply. Any windfall allowance should be realistic having regard to the strategic housing land availability assessment, historic delivery rates and expected future trends.

2.7. Additional planning guidance is provided in the National Planning Practice Guidance (PPG), originally introduced in 2014. In July 2019 the Government updated much of its [Guidance on 5 year housing land supply and Housing Delivery Test](#).

2.8. The PPG builds on the requirements of the NPPF providing substantial detail of what is expected of local planning authorities in order to demonstrate a five year supply of housing. This five year land supply report seeks to satisfy the requirements of both the new NPPF and the detailed guidance. Rather than duplicating the guidance here specific reference to national policy and guidance is drawn out in relevant sections detailing the Central Lincolnshire five year land supply position in this report.

## THE LOCAL CONTEXT

2.9. The Central Lincolnshire Local Plan was adopted on 28 April 2017, covering the period 2012-2036. It is a joint plan covering the administrative areas of City of Lincoln, North Kesteven and West Lindsey.

2.10. The Local Plan introduced a housing requirement for Central Lincolnshire of 36,960 dwellings across the plan period which equates to 1,540 dwellings per year. This housing requirement is a Central Lincolnshire requirement and it has not been divided up into separate requirements for each of the local planning authorities in the area.

2.11. The Local Plan allocates more than 100 sites ranging from 25 dwellings in size to the sustainable urban extensions, the largest of which is anticipated to deliver approximately 6,000 homes and supporting infrastructure for the area. These sites are

located in the top four tiers of the settlement hierarchy (Lincoln Urban Area, Main Towns, Market Towns and Large Villages) and only sites of 25 or larger were considered for allocation.

- 2.12. Sites coming forward lower down in the settlement hierarchy, specifically in 'Medium Villages' and 'Small Villages' do not have sites allocated. Instead through policies LP2 and LP4 a growth level was established for each village to understand the amount of development that could take place depending upon the size of the settlement and the services available. Sites delivered through these flexible policies make up an important part of the supply, and are accounted for as windfall, taking into account the permissions granted and homes built as detailed in this report.
- 2.13. Furthermore, a substantial part of the housing supply comes from small sites in urban areas. Local Plan Policy LP2 supports the principle of delivery of new homes in the top four tiers of the settlement hierarchy. However, as is detailed in this report, account has only been taken of small sites in the Lincoln Urban Area, meaning that no windfall assumptions have been made about small sites in the Main Towns, Market Towns or Large Villages.

### 3. THE FIVE YEAR REQUIREMENT

- 3.1. Paragraph 73 of the NPPF and 003 of the PPG<sup>1</sup> make it clear that for areas with a Local Plan that has been adopted within the last five years, the housing requirement set out in the strategic policies should be used for calculating the five year supply.
- 3.2. The Central Lincolnshire Local Plan identifies a housing requirement for 36,960 dwellings between 2012 and 2036 (or 1,540 dwellings per year over the 24 year plan period). This requirement was based on evidence in the Strategic Housing Market Assessment (SHMA) July 2015.

**The basic five year land supply requirement between 2012 and 2036 is therefore 7,700 dwellings**, as summarised in Table 1.

*Table 1: The Basic Five Year Land supply requirement 2019 to 2024*

a	Housing Requirement 1 April 2012 to 31 March 2036 (24 year period)	36,960	
b	Average per year	1,540	a ÷ 24
c	Basic five year requirement	7,700	b x 5

### PAST COMPLETIONS AND SHORTFALL/SURPLUS

- 3.3. However, the PPG also requires that any past shortfalls should also be taken into account in the five year supply. For Central Lincolnshire this means looking at completions since the start date of the Local Plan (1 April 2012), and any under or over-supply during that period. Between 1 April 2012 and 31 March 2018 a total of 5,718 dwellings were completed as is shown in Table 2 below.

<sup>1</sup> Reference ID: 68-003-20190722

Table 2: Completions 2012 to 2019

District	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18	2018/19	Total
City of Lincoln	233	236	166	235	188	191	346	1595
West Lindsey	256	289	378	284	300	259	407	2173
North Kesteven	348	379	458	473	468	577	698	3401
<b>Total</b>	837	904	1002	992	956	1027	1451	7169

- 3.4. This represents an undersupply of 3,611 dwellings when compared against the basic requirement of 1,540 dwellings per year.
- 3.5. However, the new NPPF and PPG allows account to be taken of delivery of student and other communal accommodation, based on the amount of housing they free up to the market.
- 3.6. Paragraph 34 of the Housing Supply and Delivery section of the PPG states:

*“All student accommodation, whether it consists of communal halls of residence or self-contained dwellings, and whether or not it is on campus, can in principle count towards contributing to an authority’s housing land supply based on:*

- *the amount of accommodation that new student housing releases in the wider housing market (by allowing existing properties to return to general residential use); and / or*
- *the extent to which it allows general market housing to remain in such use, rather than being converted for use as student accommodation.*

*This will need to be applied to both communal establishments and to multi bedroom self-contained student flats. Several units of purpose-built student accommodation may be needed to replace a house which may have accommodated several students.*

*Authorities will need to base their calculations on the average number of students living in student only accommodation, using the published census data, and take steps to avoid double-counting. The exception to this approach is studio flats designed for students, graduates or young professionals, which can be counted on a one for one basis. A studio flat is a one-room apartment with kitchen facilities and a separate bathroom that fully functions as an independent dwelling.<sup>2</sup>*

- 3.7. Paragraph 35 of the same section of the PPG also goes onto make an allowance for housing for older people, where it says:

<sup>2</sup> Reference ID: 68-034-20190722

*“Local planning authorities will need to count housing provided for older people, including residential institutions in Use Class C2, as part of their housing land supply. This contribution is based on the amount of accommodation released in the housing market. Further guidance is set out in Housing for Older and Disabled People.”<sup>3</sup>*

- 3.8. As such it is wholly appropriate to factor in development for student and other communal accommodation into the housing supply. The calculations required to be applied to these types of accommodation have been calculated and are set out in Appendix A. The ratios applied to the different types of accommodation are shown in Table 3:

*Table 3: Student accommodation and residential institutions ratios*

District	Student dwelling ratio	Residential institution ratio
City of Lincoln	2.90	1.8
North Kesteven	2.26	1.8
West Lindsey	2.01	1.8

- 3.9. A number of schemes have been delivered since the start of the Local Plan period in 2012, but monitoring of these types only goes back to 2015 in line with the Government data requests for the Housing Delivery Test. The delivery of bedrooms in student accommodation and residential institutions since 2015 is shown in Table 4 alongside the number of dwellings freed up to the market:

*Table 4: No of dwellings freed up to the market*

Year	Type	City of Lincoln	North Kesteven	West Lindsey	Conversion using ratio <sup>4</sup>
2015/16	Student accommodation	519			<b>179</b>
	Residential Institution			66	<b>37</b>
2016/17	Student accommodation				
	Residential Institution		8	8	<b>9</b>
2017/18	Student accommodation				
	Residential Institution	53	4	2	<b>33</b>
2018/19	Student accommodation	148			<b>51</b>
	Residential Institution		81		<b>45</b>
Total	Student accommodation	667			<b>230</b>
	Residential Institution	53	93	76	<b>124</b>

- 3.10. Table 4 shows that a total of 354 dwellings have been released to the market through the delivery of student accommodation and residential institutions since 2015/16. The detail of permissions which make up the supply of student accommodation and residential institutions are included in Appendix B.

<sup>3</sup> Reference ID: 68-035-20190722

<sup>4</sup> Using the conversion ratios in Table 3 against the number of bedrooms delivered.

- 3.11. When the amount of homes freed up to the market as a result of student accommodation and residential institutions being delivered, are added to the past supply of dwellings since 2012, this gives a shortfall of 3,257 dwellings between 1 April 2012 and 31 March 2019 as is shown in Table 5.

Table 5: Housing supply and requirement 2012 to 2019

d	Net completions 1 April 2012 to 31 March 2019 (7 year period)	7,169	See Table 2
e	Contribution from student accommodation and residential institutions from 1 April 2015 to 31 March 2019	354	See Table 4
f	Target delivery rate 1 April 2012 to 31 March 2019	10,780	b x 7
g	Surplus / shortfall for 1 April 2012 to 31 March 2019	-3,257	d + e - f

## ESTIMATES FOR THE CURRENT YEAR AND SHORTFALL/SURPLUS

- 3.12. An estimate of the supply against the requirement for the current year 2019/20 also needs to be factored in. It is estimated that 1,884 dwellings will be delivered in the current year (2019/20). This represents a surplus of 344 dwellings when compared against the requirement for 1,540. However, as is detailed above and in Appendix C4, the changes to the PPG allow for development of communal accommodation to be taken into account. It is expected that these forms of development will deliver 1,110 bedrooms in 2019/20 which will allow for the release of 401 dwellings to the market (using the government methodology). This increases the expected delivery in 2019/20 to 2,285 – a surplus of 745 dwellings. This surplus needs to be added into the calculations.
- 3.13. During the examination of the Central Lincolnshire Local Plan, the Inspectors approved the use of the ‘Liverpool’ method of dealing with the shortfall in Central Lincolnshire. This means that the shortfall can be spread across the remaining years of the plan period to 2036. When the total shortfall from 2012-2020 of 2,512 dwellings is spread across the remaining years of the plan period from 2020/21-2035/36 this results in 157 dwellings per year being added to the annualised housing requirement of 1,540 dwellings. This results in a new requirement of 1,697 dwellings per year. Over the five year period this adds an additional 785 dwellings to the requirement increasing it from 7,700 dwellings to 8,485 as shown in Table 6.

Table 6: Estimate for 2019/20 and adding shortfall to five year supply

h	Estimate for current year – 2019/20	1,884	See Table 13
i	Estimated contribution from student and communal accommodation in current year – 2019/20	401	See Table 13
j	Estimate of surplus / shortfall for current year – 2019/20	+745	h + i - b
k	Total surplus / shortfall 2012-2020	-2,512	g + j
l	Amount of undersupply to be included in the five year requirement	785	k ÷ 16 x 5
m	Five year requirement taking into account shortfall	8,485	c ± l

## ADDING BUFFERS

- 3.14. In addition to the five year requirement, paragraph 73 of the NPPF requires local authorities to include a 5% buffer to ensure choice and competition in the market for

land; or 10% where the local planning authority wishes to demonstrate a five year supply through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year; or where there has been a record of persistent under-delivery of housing, the buffer should be increased to 20%. Footnote 39 of the NPPF makes it clear that persistent under-delivery will be measured against the Housing Delivery Test (HDT) from November 2018.

- 3.15. It is made clear in the NPPF that these buffers are moved forward from later in the plan period and is not an additional requirement for more housing. The PPG also makes clear in paragraph 022<sup>5</sup> that only one of the buffers should apply and that they are not cumulative.
- 3.16. The PPG and the HDT Rule Book detail the process for calculating HDT. This introduces a delivery test across the past three years to consider how much housing has been delivered against the housing requirement. Paragraph 12 of the HDT Rule Book also makes it clear that, for the purposes of the HDT, the housing requirement to be used is the lower of the adopted housing requirement in a Local Plan or the newly introduced annual local housing need figure – based on a national standardised method of calculating local housing need.
- 3.17. Paragraphs 21 and 22 of the HDT Rule Book also introduces transitional arrangements so that in place of the new local housing need figure, household projections should be used for the years 2015-16, 2016-17 and 2017-18. It also stipulates that for 2015-16 and 2016-17 the 2012 household projections should be used and the 2014 projections should be used for 2017-18, taking the annual average over a 10 year period as is set out in Table 1 of the HDT Rule Book.
- 3.18. For Central Lincolnshire the housing requirement in the Local Plan (1,540 dwellings per year) is higher than the Office for National Statistics household projections and the current Local Housing Need figure of 1,083 dwellings in 2019.

*Table 7: HDT results against ONS Household Projections*

<b>Year</b>	<b>Requirement</b>	<b>Delivered<sup>6</sup></b>	<b>Percentage</b>
2016/17	970 <sup>7</sup>	933	96.2%
2017/18	961 <sup>8</sup>	1,135	118.1%
2018/19	1,083 <sup>9</sup>	1,547 <sup>10</sup>	142.8%
Total	3,014	3,615	119.9%

- 3.19. Table 7 shows that, following the HDT Rule Book methodology, the Central Lincolnshire housing supply has surpassed the household projections across the three years. Therefore, the correct buffer to be applied in Central Lincolnshire is 5%. This buffer should be added against both the basic housing requirement and any shortfalls in the plan period as is made clear in paragraph 0 of the PPG<sup>11</sup>.

<sup>5</sup> Reference ID: 68-022-20190722

<sup>6</sup> The delivered dwellings is the figure provided to MHCLG for Housing Flow Reconciliation (HFR) returns which will be used for the HDT calculation. It should be noted that the past completions figures in Table 2 differs from these figures as a result of the information available at the time of the HFR returns being submitted and the information in Table 2 is the correct figure for completions.

<sup>7</sup> Based on 10 year average of 2012 household projections 2016-2026

<sup>8</sup> Based on 10 year average of 2014 household projections 2017-2027

<sup>9</sup> 2019 Local Housing Need figure for all three Central Lincolnshire Districts combined.

<sup>10</sup> Based on the net additional dwellings and communal accommodation delivered in 2019.

<sup>11</sup> Reference ID: 68-022-20190722

- 3.20. Table 8 shows the application of the 5% buffer on the housing requirement across the five year period.

Table 8: Five year requirement including shortfall and buffer

n	Buffer – 5%	424	$m \times 0.05$
o	Five year requirement taking into account shortfall and buffer	8,909	$m + n$
p	Average requirement per year	1,782	$o \div 5$

**The five year land requirement for 2020 to 2025 is therefore 8,909 dwellings.**

## 4. THE FIVE YEAR SUPPLY

- 4.1. Now that the requirement is known, taking into account shortfall and buffers, it is necessary to assess the supply of deliverable housing sites in Central Lincolnshire.

### SITES IN THE SUPPLY

- 4.2. As is detailed in the NPPF, only deliverable sites can be included. For a site to be considered deliverable it *‘should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years’*.
- 4.3. Deliverable sites can come from a range of sources of information, for example through allocations in the Local Plan, or sites where full or outline permission have been granted, for example. Through monitoring it is possible to present robust, up to date information on the sites that make up the Central Lincolnshire land supply, and to understand which sites are deliverable and how many homes will be delivered in the five year period.
- 4.4. The NPPF glossary details that for sites that are not major development (i.e. fewer than 10 dwellings, or smaller than 0.5 hectares in size) and for sites where detailed planning permission has been granted, these should be considered deliverable until such time as permission expires, unless there is clear evidence that they are no longer deliverable. The glossary and the revised PPG stipulates that sites of 10 or more dwellings (or 0.5 hectares or larger), or without detailed planning permission should only be considered deliverable where there is evidence that housing completions will begin on site within 5 years.
- 4.5. The Central Lincolnshire Five Year Land Supply is made up of sites that accord with the NPPF requirements including sites with permission and sites allocated in the adopted Local Plan. Officers at North Kesteven, West Lindsey and City of Lincoln have assessed each of the individual sites with regards to the expected timescales for delivery. This assessments has included an extensive consultation of land owners, developers and agents representing sites in the supply.

4.6. Appendix C provides a list of all sites included in the five year supply and the expected delivery rate. These are separated out according to the site status as follows:

- Non-major development sites (i.e. fewer than 10 dwellings or smaller than 0.5 hectares);
- Major development sites with detailed permission granted; and
- Major development sites with outline permission granted or that are allocated without permission at this time.

More information is provided against sites with outline permission and sites without permission at this time where they are expected to deliver within the five year period. There are also many sites which are not included in the five year supply, due to an absence of evidence that they will be delivered within the five year period. Many of these sites are unconstrained and could also come forward within the five year period. Officers will continue to liaise with land owners, agents and developers to understand the latest position on sites in the supply.

4.7. In considering the timings and delivery rates of sites, officers have made contact with builders, agents and land owners of sites to understand their anticipated delivery. Typically where information obtained provides a robust position for a site's delivery, this information has been included.

4.8. However, in order to test the expected delivery timescales and build rates, a number of assumptions have been developed based on experience with real world example sites across Central Lincolnshire. These assumptions are set out in the accompanying Central Lincolnshire Housing Assumptions Report, October 2019.

4.9. In Appendix C, where a site already has planning permission, the dwelling figure is that for which permission was granted. Where a site is under construction, the outstanding dwelling figure shown is the remaining number still to be completed (at 1 April 2019) in accordance with the permission. For sites that are allocated but do not yet have planning permission the figure used is the 'indicative dwelling' set out in the adopted Central Lincolnshire Local Plan, unless through other discussions with land owners or through pre-application discussion or a live planning application it is clear that an alternative capacity is more appropriate.

4.10. As detailed in section 3, account should be taken of the delivery of student accommodation and residential institutions in terms of the number of homes released to the market. By using the Government ratios, provided in Table 3, a figure can be incorporated into the five year supply resulting from such developments.

4.11. There are a number of sites with permission for student accommodation or for a residential institution across Central Lincolnshire, many of which are expected to be delivered this year (2019/20) or within the 5 year period (2020/21-2024/25). These developments are expected to free up a total of 401 dwellings to the market in 2019/20 and a further 601 dwellings in the five year period as is shown in Table 9.

Table 9: No. of bedrooms with permission in communal accommodation and no. of dwellings released.

District	Student bedrooms	Dwellings released <sup>12</sup>	Communal accommodation	Dwellings released <sup>13</sup>	Total dwellings released
City of Lincoln	2755	950	72	40	990
North Kesteven			16	9	9
West Lindsey			7	4	4
Total	2755	950	95	53	1003

- 4.12. Details of sites making up the supply of student accommodation and residential institutions is provided in Appendix C4.

## WINDFALL ALLOWANCE

- 4.13. The NPPF<sup>14</sup> states that ‘*where an allowance is to be made for windfall sites as part of anticipated supply, there should be compelling evidence that they will provide a reliable source of supply. Any allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends*’. The Local Plan allocates sites of 25 dwellings or more, therefore there is justification for including a windfall allowance for small sites below 25 dwellings. The inclusion of these sources of windfall were endorsed by the Local Plan Inspectors.

- 4.14. This windfall allowance can be divided into two categories:

### Small Sites in the Lincoln Urban Area

- 4.15. An allowance of 75 dwellings per year for small sites, starting in 2021/22, is allowed for in the Lincoln urban area.
- 4.16. This assumption covers small sites across the Lincoln Urban Area and it is based on previous completions on small sites solely within the administrative boundary of City of Lincoln. In the City of Lincoln sites of fewer than 25 dwellings have made up, and continue to make up, an important part of the land supply. The historic delivery on these sites is shown in Table 10.

Table 10: Historic delivery on sites below 25 dwellings in the City of Lincoln

06/07	07/08	08/09	09/10	10/11	11/12	12/13	13/14	14/15	15/16	16/17	17/18	18/19
113	128	187	102	88	257	75	98	104	136	101	94	64

- 4.17. This shows the consistency at which small sites come forward in the City of Lincoln with 75 dwellings being significantly below the mean average of 119 dwellings across the 13 year period. Furthermore, this allowance does not include delivery on small

<sup>12</sup> Using the ratio 2.9:1 as detailed in Table 3.

<sup>13</sup> Using the ratio 1.8:1 as detailed in Table 3.

<sup>14</sup> NPPF revised July 2018 - Paragraph 70

sites in parts of the Lincoln urban area which are within North Kesteven and West Lindsey and for which Local Plan policies provide in-principle support for.

- 4.18. No windfall allowance on these small sites are included in years 2019/20 and 2020/21 as it is assumed that they would already have planning permission and therefore have already been accounted for in the commitment data.
- 4.19. This windfall allowance is very conservative when it is considered what has been, and what will continue to be, delivered in the Lincoln Urban Area, especially when the parts of the Lincoln Urban Area outside of the City of Lincoln administrative area are also considered.

### Small Sites in Smaller Settlements and the Rural Area

- 4.20. Under Policies LP2 and LP4 of the adopted Local Plan some development on small sites is supported in principle on suitable sites up to an assigned growth level for each 'Medium Village' and 'Small Village' in the settlement hierarchy. This is a valuable element of the supply and is therefore appropriate to include in the five year supply as windfall. It should be noted that these growth levels are not a target for small and medium villages, but instead guide what level of growth would be acceptable in total in a settlement across the plan period, should all other policy requirements be satisfied and the site be deemed appropriate for the proposed development.
- 4.21. Looking back at recent delivery in these medium and small villages it is clear that delivery has been fairly consistent.

*Table 11: Growth from Medium and Small Villages*

Year	2015/16	2016/17	2017/18	2018/19	2019/20	2020/21
Dwellings delivered	142	136	107	120		
Dwellings anticipated from permissions					271	327

- 4.22. In order to include a windfall allowance from this source, the remaining growth level at the end of the current monitoring year (2018/19) for all Medium Villages and Small Villages has been established and this has been distributed evenly across the remaining years of the plan period. This remaining growth windfall allowance also excludes sites with permission to avoid risk of double counting.
- 4.23. No windfall allowance on these small sites are included in years 2019/20 and 2020/21 as it is assumed that they would already have planning permission and therefore have already been accounted for in the commitment data.
- 4.24. The total remaining growth in Small Villages and Medium Villages at 1 April 2019 was 1,335 dwellings. When aggregated across the remaining 15 years of the plan period (when 2019/20 and 2020/21 are excluded) this gives an allowance of 89 dwellings per year. Whilst this approach takes the entire remaining growth level across all villages and spreads it across the plan period, the delivery of the plan is not reliant on the growth levels being achieved in all settlements. It should be noted that the 89 dwellings included in the supply from 2021/22 is lower than the lowest amount of growth recorded in these villages since 2015/16.

### Potential sources of windfall not included in the supply

- 4.25. No other windfall allowances have been included for growth from small sites (fewer than 25 dwellings) in any other towns or villages (levels 2-4 of the settlement hierarchy) or in hamlets (level 7 of the hierarchy) despite the fact that the Local Plan policies provide in-principle support for some development in suitable locations in many of these settlements.
- 4.26. Development on sites of fewer than 25 dwellings have delivered a significant amount of growth in these locations and they are anticipated to continue as is shown in Table 12.

*Table 12: Completions from small sites in Lincoln Urban Area (excluding in City of Lincoln), Main Towns, Market Towns, Large Villages, Hamlets and the Countryside.*

<b>Year</b>	<b>2015/16</b>	<b>2016/17</b>	<b>2017/18</b>	<b>2018/19</b>	<b>2019/20</b>	<b>2020/21</b>
Dwellings delivered	193	167	191	138		
Dwellings anticipated from permissions					226	210

- 4.27. This shows that there are additional sources of potential supply which will continue to deliver growth. The overall windfall allowance (at 164 dwellings per year from the small sites in the City of Lincoln area and Medium and Small Villages) across three council areas is therefore considered a very conservative estimate, and will be exceeded in reality. Based on the past completions since 2015/16, sites of less than 25 dwellings provided an average of 390 dwellings per year (471 in 2015/16, 404 in 2016/17, 392 in 2017/18, and 292 in 2018/19) and this trend will undoubtedly continue given the flexibility provided by the Local Plan and the housing market in Central Lincolnshire.
- 4.28. Taking the evidence into account, it is clear that the windfall allowance is extremely conservative and is justified to continue to be included in the housing supply. Furthermore, given the scale of the discount included, an increased figure could be justified for inclusion. However, it is not proposed to be increased for the purposes of this report.

## 5. CALCULATING THE FIVE YEAR SUPPLY

- 5.1. The following table provides a summary of the five year supply of deliverable housing sites based on site status at 31 March 2019. Full details are set out in Appendix C.

Table 13: Estimated supply for 'current year' and in five year period

Type of permission	2019/20 Current year	2020/21 Yr 1	2021/22 Yr 2	2022/23 Yr 3	2023/24 Yr 4	2024/25 Yr 5	Estimated total in five years
Small sites with permission	434	451	325	175	37	54	1,042
Large sites with detailed permission	1,450	1,257	1,028	770	595	460	4,110
Large sites with outline permission or allocated in the Local Plan	0	226	606	733	790	762	3,117
Student accommodation and residential institutions	401	197	351	53	0	0	601
Small sites windfall allowance in Lincoln City			75	75	75	75	300
Small sites windfall allowance in rural area			89	89	89	89	356
<b>Total</b>	<b>2,285</b>	<b>2,131</b>	<b>2,474</b>	<b>1,895</b>	<b>1,586</b>	<b>1,440</b>	<b>9,526</b>

- 5.2. The five year land supply results are set out in the Table 14.

Table 14: Five Year Supply

q	Estimate of five year land supply	<b>9,526</b>	See Table 13
r	Total (year)	<b>5.35 years</b>	$q \div p$

The results show that the Central Lincolnshire Authorities have sufficient land to more than meet the five year requirement of 8,909 dwellings and can demonstrate 5.35 years of deliverable supply.

- 5.3. The Central Lincolnshire Districts will continue to work with developers to ensure a consistent and sustainable supply of housing land. Through the review of the Central Lincolnshire Local Plan, additional sites may be allocated and added to the supply where evidence justifies their inclusion.

## APPENDIX A – Ratios for Student and Other Communal Accommodation

### Student Accommodation

2011 Census Data (CT0773) – Number of students in student only household

Dataset population: All student only households where all students are aged 18 or over \*

Table 15: Number of students in student only households

District	All student only households	Size of student only household														
		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15+
Lincoln	1,179	325	209	224	243	88	71	7	6	1	1	1	1	0	1	1
NKDC	126	51	33	20	15	5	0	0	0	0	0	1	1	0	0	0
WLDC	101	42	27	22	9	1	0	0	0	0	0	0	0	0	0	0
Central Lincs	1,406	418	269	266	267	94	71	7	6	1	1	2	2	0	1	1

Table 15 identifies how many of each size student only households there were in Central Lincolnshire in the 2011 Census. However, in order to obtain the ratio, it is necessary to extrapolate this information to understand the total number of students in Central Lincolnshire, living in each size of student only accommodation. This is provided in Table 16, below.

Table 16: Total number of students by size of student only household

District	All student only households	Number of students living in communal accommodation of by number of students in the accommodation															Ratio	
		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15+		Total
Lincoln	1,179	325	418	672	972	440	426	49	48	9	10	11	12	0	14	15	3,421	<b>2.90</b>
NKDC	126	51	66	60	60	25	0	0	0	0	0	11	12	0	0	0	285	<b>2.26</b>
WLDC	101	42	54	66	36	5	0	0	0	0	0	0	0	0	0	0	203	<b>2.01</b>
Central Lincs	1,406	418	538	798	1,068	470	426	49	48	9	10	22	24	0	14	15	3,909	<b>2.78</b>

Table 16 demonstrates the ratio for each of the Central Lincolnshire authorities and also what the ratio would be for Central Lincolnshire as a whole. Given the differences between each of the districts (in terms of their built nature and the types of student accommodation likely to be delivered) it is proposed that, rather than taking the Central Lincolnshire average of 2.78, that the ratio for each District be applied where student accommodation is proposed.

## Older Persons Accommodation

2011 Census Data (CT0774) - Age of Household Reference Person (HRP) by number of adults in household

Dataset population: All Household Reference Persons (HRPs) aged 16 or over

Table 17: Total number of households by size of household

District	Total	Size of households														
		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15+
Lincoln	39,823	16,345	18,534	3,405	1,127	259	123	11	9	4	1	2	1	0	1	1
North Kesteven	45,971	14,252	26,781	3,821	945	144	19	2	2	1	1	2	1	0	0	0
West Lindsey	38,384	12,479	21,524	3,403	823	128	19	7	1	0	0	0	0	0	0	0

Table 17 shows how many of each size household there were in the 2011 Census. As for with the students, it also needs to be extrapolated into the number of people living in each size household in order to arrive at a ratio. This is provided in Table 18 below.

Table 18: Total number of adults by household size

District	Total number of adults (aged 16 or over) by size of household																Ratio
	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	Total adults	
Lincoln	16,345	37,068	10,215	4,508	1,295	738	77	72	36	10	22	12	0	14	15	70,427	1.769
North Kesteven	14,252	53,562	11,463	3,780	720	114	14	16	9	10	22	12	0	0	0	83,974	1.827
West Lindsey	12,479	43,048	10,209	3,292	640	114	49	8	0	0	0	0	0	0	0	69,839	1.819

The average for England and Wales is also 1.8 when rounded. Therefore, as this rounded figure is being used in the HDT Rule Book and the Central Lincolnshire figures all round to this, it is proposed that a ratio of 1.8 should be applied to calculations relating to any residential institutions in Central Lincolnshire in order to calculate the amount of general market dwellings released.

## APPENDIX B – Past Completions of Student Accommodation and Residential Institutions

The following permissions have been recorded as having delivered communal accommodation since 1 April 2015.

### Student Accommodation

District	Application	Address	No. bedrooms delivered
City of Lincoln	2013/1297/F & 2014/0315/F	Land at Ruston Way / Tritton Road, Lincoln	519
	2018/0533/FUL & 2018/0531/FUL	"Land Including 98 Newland (Viking House) And 100, 102 And 104 Newland, Lincoln & Land At 94 And 96 Newland (Taste Of Marrakesh) And No. 100, 102 And 104 Newland	148

### Residential Institutions

District	Application	Address	No. bedrooms delivered
City of Lincoln	12/0297/F	Park View Care Home, St Botolph's Crescent, Lincoln	53
North Kesteven	14/1669/FUL	Kirk House, Dorrington	8
	n/a	2 Grantham Road, Sleaford	4
	18/0789/FUL, 16/0986/RESM, 12/1022/OUT	Land Off Furlong Way Holdingham Sleaford	64
	18/0766/FUL	5 Thorpe Lane, South Hykeham, Lincoln	8
	18/0917/FUL	Witham Court, Fen Lane, North Hykeham, Lincoln	9
West Lindsey	129090	Park Lane, Burton Waters	60
	128149	The Hawthorns, 53 Station Road, Bardney	6
	131708	The Poplars, Chapman Street, Market Rasen	8
	134668	51 Station Road, Bardney	2

## **APPENDIX C - Details of Sites in the Five Year Supply**

C1 – Small sites with planning permission (fewer than 10 dwellings)

C2 – Sites with detailed permission for major development

C3 – Sites with outline permission or sites allocated in the Local Plan

C4 - Sites with permission for student accommodation and residential institutions

C1 – Small sites with planning permission (fewer than 10 dwellings)

Site controlled by builder with proven track record for delivery, confirmed delivery within 5 year period.	
	CL3031	Land to the South of the Whyche Billingham		NK	Billingham	98	0	98	0	0	98	0	0	0	0	0	0	0	0	0	No evidence available at this time to confirm that this site will deliver in the five year period.
	CL415	Land South of Bracebridge Heath		NK	Bracebridge Heath	241	0	241	0	0	241	0	0	0	0	0	25	50	75	Detailed pre-application discussions with land owner. Outline application expected in 2019. Single landowner, resolution to constraints has been identified. No viability issues, surveys being completed to support the planning application process. Land owner anticipates securing permission and disposing of the site to allow commencement in summer 2022 with first dwellings in spring 2023. Whilst substantial delivery in five year period is likely, a cautious approach has been taken to the inclusion in the five year period at this time.	
	CL4666	Land To West Of Station Road Branston		NK	Branston	91	0	91	0	0	91	0	0	25	25	25	16	0	91	Full application (18/0455/FUL) approved in June 2019. First dwelling completion expected late 2020, overall site completion anticipated summer 2024.	
136604	CL1888	Land adjacent and to the rear of Roman Ridge on Brigg Road	OUT	WL	Caistor	69	0	69	0	0	69	0	0	0	0	0	0	0	0	0	No evidence available at this time to confirm that this site will deliver in the five year period.

	CL4394	Land North of Hainton Road, Lincoln (known as Rookery Lane site)		CofL	Lincoln	44	0	44	0	0	44	0	0	15	29	0	0	0	0	44	Site is owned by the City Council which is also the developer. Site is available now (capacity now 44) and an application is expected in late 2019 following pre application discussions and completion of ground investigations, ecology surveys etc. Expected start on site Spring 2020 with completions beginning March/April 2021.
	CL4430	North West of Lincoln Road Romangate, Lincoln		CofL	Lincoln	60	0	60	0	0	60	0	0	0	0	0	0	0	0	0	Site controlled by the developer of the neighbouring site which is being developed and site is available now and developer has confirmed intention to develop this site when the neighbouring site is complete.
	CL819	Western Growth Corridor		CofL	Lincoln	3200	0	3200	0	0	3200	0	0	0	67	67	67	120	321	321	Planning Application submitted 15 April 2019 by City Council who is the main developer of the site. Homes England funding obtained. Timescales agreed with developer as phase 1, to be frontloaded without need for major infrastructure delivery.
2016/0813/OUT	CL525	Former East Midlands Electricity Board Site Spa Road Lincoln	OUT	CofL	Lincoln	330	0	330	0	0	330	0	0	0	0	0	0	0	0	0	Outline permission granted January 2018. HIF funding obtained to address initial costs and unlock site. Confirmation from developer that part of site can be brought forward ahead of remediation. Remediation costs lower than initial assumptions. Reserved Matters application expected late 2018 early 2019. Spa Site now being led by developer called Countryside however Homes England have written (April 2019) to City Council stating the site is no longer viable and funding withdrawn so on that basis site needs to be taken out from the 5 year HLS as a precaution.
	CL526	Former Main Hospital Complex, St Anne's Road, Lincoln		CofL	Lincoln	50	0	50	0	0	50	0	0	0	0	0	0	0	0	0	Whilst the CCG have confirmed this site is available for development it is still in healthcare use and is not known to have been marketed and there is no other known progress with bringing forward at this time.
2017/0342/OUT	CL698	Land to the rear of Birchwood Centre	OUT	CofL	Lincoln	62	0	62	0	0	62	0	0	0	0	0	0	0	0	0	Outline permission granted in November 2017 for 62 affordable homes. Whilst site has potential to come forward during five year period, there is no evidence at this time to confirm this. Site was being taken forward by Birchwood BIG Local (community land trust) but they have made no progress to date so site may be taken back by City Housing Team to bring forward.
