

Request for a Housing Immigration Inspection

If requested by an Embassy or High Commission, the Council will carry out a property inspection of premises where a person or persons from abroad are to reside in the UK. This involves checking safety features such as whether the gas installation is tested and ensuring there is adequate space and amenities. The Council will provide a letter to the Embassy or High Commission if this criteria is met as part of the immigration application.

Please complete this form if you require an inspection of your property (block capitals)
