1.0 Introduction

- 1.1 The Town and Country Planning (Local Planning) (England) Regulations 2012, Regulation 34 requires Local Planning Authorities to produce an Authorities' Monitoring Report (AMR). This AMR is structured around meeting the requirements of Regulation 34.
- 1.2 Compliance with this Regulation builds on the annual monitoring reports produced and published for the District historically between 2005 and 2015 under the title "Annual Monitoring Report".
- 1.3 During this monitoring period the Authority has been working with its partner authorities, Lincoln City Council and West Lindsey District Council towards the adoption of a Central Lincolnshire Core Strategy. This document sets out the strategic planning policies for the area, including the housing requirement, and growth distribution.
- 1.4 For the purposes of this 2014-2015 monitoring report, the following key documents relevant during this period will be referenced;
 - Central Lincolnshire Local Development Scheme (LDS) 2014-2016 approved by Central Lincolnshire Joint Strategic Planning Committee (CLJSPC) 3rd March 2014
 - Draft Central Lincolnshire Local Plan
- 1.5 The above documents are available to view at the central Lincolnshire Local Plan website <http://www.central-lincs.org.uk/>
- 1.6 The source of the information used in this report is North Kesteven District Council unless otherwise stated.
- 1.7 This AMR covers the period 1st April 2014 to 31st March 2015.

Key findings of this Monitoring Report

- 1.8 The following summarise the key findings of this AMR:
 - During 2014/15 progress on the Central Lincolnshire Local Plan is summarised as follows;
 - New Local Development Scheme produced and agreed on the 3rd March 2014 detailing the production of a new single Local Plan document;
 - It was agreed on the 7th April 2014 that the new Local Plan will cover the period 2011 to 2036;
 - The Statement of Community Involvement was adopted on the 20th May 2014;
 - The new Draft Local Plan was launched on the 5th June 2014;
 - Consultation on the new preliminary Draft Local Plan took place from the 1st October to the 11th November 2014;

- During the monitoring period;
 - 443 new homes were completed;
 - There were 88 affordable housing completions (gross);
 - At 31st March 2015 North Kesteven has a deliverable housing supply of 4577 dwellings;
 - 6237.30 square metres of additional employment floor space was completed;
 - 75.25% of the completed employment space was on previously developed land;
 - 1338 square metres of development was completed for town centre uses
 - There is a total area of 89.13 ha of land designated as Local Nature Reserves in North Kesteven;
 - There are 7 Sites of Special Scientific Interest (SSSI) totalling an area of 156.73 ha. 89.7% of this land is in favourable or unfavourable but recovering condition;
 - There are 44 County Wildlife Sites in North Kesteven
 - There are 144 Local Wildlife Sites and 8 Local Geological Sites with 49% of these locally designated sites in positive conservation management status.

Detailed Portrait of North Kesteven

1.9 Detailed information on topics such as Population, Households, Economy, Health and Education can be found in the District Area profiles published by the Lincolnshire Research Observatory <http://www.research-lincs.org.uk/area-profiles.aspx>.

Location

1.10 North Kesteven is one of seven districts located in the centre of Lincolnshire and covers an area of 356 square miles. The district is characterised by small settlements and large areas of arable farmland. There are many small villages and several larger service villages. The main concentration of residents are located however in the market town of Sleaford, with a population of over 17,000 and North Hykeham, which adjoins the neighbouring city of Lincoln.

Source: Google

Population

1.11 The table below sets out county wide information on population change. There has been a 1% increase in population between 2013 and 2014 according to the Office for National Statistics mid-year estimates. This is in line with the overall estimated growth for Lincolnshire. An estimated rise from 108,500 in 2011 to 111,000 in 2014 is recorded for North Kesteven.

Table 1 – Lincolnshire and Districts Population Estimates 2011 to mid-2014

Local Authority Area	2011 census	2013 Mid-year estimate	2014 Mid-year estimate	% Change 2004-2014	% Change 2013-2014
Boston	64,600	65,900	66,500	14.5	0.9
East Lindsey	136,700	136,700	137,600	2.0	0.7
City of Lincoln	93,100	95,600	96,200	9.7	0.6
North Kesteven	108,500	109,900	111,000	11.1	1.0
South Holland	88,400	89,200	90,400	11.9	1.3
South Kesteven	134,100	136,400	138,000	8.6	1.2
West Lindsey	89,400	90,700	91,800	9.5	1.2
Lincolnshire	714,800	724,500	731,500	8.8	1.0

Totals may not add due to rounding

2.0 Authorities' Monitoring Report and the Local Planning Regulations 2012

Regulation 34(1) – Local Plan and Supplementary Planning Document (SPD) Progress

34. (1) A local planning authority's monitoring report must contain the following information—

(a) the title of the local plans or supplementary planning documents specified in the local planning authority's local development scheme;

(b) in relation to each of those documents— .

(i) the timetable specified in the local planning authority's local development scheme for the document's preparation; .

(ii) the stage the document has reached in its preparation; and .

(iii) if the document's preparation is behind the timetable mentioned in paragraph (i) the reasons for this; and .

(c) where any local plan or supplementary planning document specified in the local planning authority's local development scheme has been adopted or approved within the period in respect of which the report is made, a statement of that fact and of the date of adoption or approval.

- 2.1 A Local Development Scheme (LDS) is the project plan setting out the content and relevant timescales for the delivery of a council's Local Plan. Since the establishment of the Central Lincolnshire Joint Planning Committee in 2011 the District has been working jointly with neighbouring Districts, Lincoln City Council and West Lindsey District Council to produce a Joint Local Plan. The Local Development Scheme 2014-2016 is relevant to this monitoring period.
- 2.2 On the 7th April 2014 it was agreed that the Draft Local Plan would cover the period 2011-2036.
- 2.3 The responses to a consultation on site allocations which was carried out between May and September 2013 was discussed at a Committee meeting held on the 7th April 2014 and it was agreed the data provided important baseline information when looking at potential land allocations as part of the new Local Plan process.
- 2.4 The Statement of Community Involvement (SCI) was adopted on the 20th May 2014 replacing the first SCI published on the 19th July 2010.
- 2.5 The preliminary Draft Local Plan was launched on the 5th June 2014 at an event held at the Lincoln Hotel.
- 2.6 Consultation on the first draft of the new Local Plan was carried out between 1st October 2014 and the 11th November 2014. A high level of responses were received with around 500 individual respondents providing over 3000 individual representations. As part of the consultation around 100 new sites were also put forward by Landowners to inform the work being carried out on site allocations.
- 2.7 Work on establishing the growth targets including the production of a Strategic Housing Market Assessment was carried out between January and April 2015
- 2.8 The second draft of the Local Plan is on course for publication in July 2015.

2.9 To meet regulation 34(1) (a), the title of Local Plans (DPDs) and SPDs in the LDS are as follows:

Local Development Scheme 2014-16;

- Preliminary Draft Central Lincolnshire Local Plan
- Community Infrastructure Levy Charging Schedules (Aligned), for: West Lindsey; North Kesteven; City Of Lincoln.

2.10 The current North Kesteven Local Plan was adopted in 2007. The Central Lincolnshire Local Plan is intended to replace the existing Local Plan.

2.11 To meet regulation 34(1) (b) (i) and (ii), the LDS set out the following timetable for the Local Plan production, together with the stage it reached during the Monitoring period:

Table 2 - Progress against Local Development Scheme 2014-2016 targets

Document	LDS 2014-16 target date	Progress during AMR period 2014-15
<u>Central Lincolnshire Local Plan</u>		
Ongoing Community Involvement on Draft Local Plan	March 2014 – December 2015	Commenced March 2014
Formal consultation on Draft Local Plan (Settlement Growth & Strategic Policies)	October – November 2014	Completed 11 th November 2014
Formal consultation on Draft Local Plan (Site Allocations)	July – August 2015	-----
Final Draft Plan Formal Consultation	January – February 2016	-----
Submission	April 2016	-----
Examination	July 2016	-----
Inspectors Report	September 2016	-----
Adoption	November 2016	-----

2.12 To meet regulation 34(1) (b) (i), it is confirmed that progress towards the Local Plan adoption is in line with Local Development Scheme Targets.

2.13 To meet regulation 34(1)(c), it is confirmed that no Local Plan or Supplementary Planning Document was adopted in the Monitoring Period.

Regulation 34(2) Non-Implementation of a Policy

34. (2) Where a local planning authority are not implementing a policy specified in a local plan, the local planning authority's monitoring report must—

(a) identify that policy; and .

(b) include a statement of— .

(i) the reasons why the local planning authority are not implementing the policy; and

(ii) the steps (if any) that the local planning authority intend to take to secure that the policy is implemented.

2.14 To meet Regulation 34(2), it is confirmed that all 'saved' policies (i.e. policies saved by direction of the Secretary of State) in the 2007 Local Plan were being implemented during the monitoring period apart from policy H1 which addresses housing.

The National Planning Policy Framework (NPPF) which came into force on the 27th March 2012 confirms in paragraph 49 that it is necessary to consider the current position regarding to housing land supply within the district. The 2013 Central Lincolnshire Housing Land Availability Assessment update confirms that the District Planning Authority does not currently have a 5 year housing supply. Therefore saved Local Plan policy H1'Housing' (which set out housing land supply for the plan period) is considered to be out of date.

Paragraph 14 of the National Planning Policy Framework makes it clear that at the heart of the planning system is a presumption in favour of sustainable development. When making decisions regarding proposals where relevant local policies are out of date the key direction set out in the NPPF is that permission should be granted if the proposal is considered to be sustainable development. The District is therefore not implementing policy H1 for these reasons and is considering planning applications and making decisions based on the NPPF with regard to housing development. No steps are being taken to secure that the policy is implemented.

3.0 Housing in North Kesteven

Regulation 34(3) – Net additional dwellings

34. (3) Where a policy specified in a local plan specifies an annual number, or a number relating to any other period of net additional dwellings or net additional affordable dwellings in any part of the local planning authority's area, the local planning authority's monitoring report must specify the relevant number for the part of the local planning authority's area concerned—

(a) in the period in respect of which the report is made, and

(b) since the policy was first published, adopted or approved.

- 3.1 To respond to Regulation 34(3)(a), the adopted Local Plan does not specify an annual number (dwellings or affordable dwellings) for the monitoring period of 2014/15 and a replacement Plan has not yet been adopted. However, it is confirmed that 443 net additional dwellings were completed in the monitoring period and in terms of affordable dwellings, it is confirmed that 88 **gross** affordable homes were completed.
- 3.2 It is not currently possible to monitor **net** affordable dwellings completed, as data is not available for affordable dwelling losses and indirect gains. By its nature such data is difficult to collect as the LA is not notified of conversions to a non-affordable dwelling or visa versa as a matter of course.
- 3.3 The Authority does however have data on Council House losses from stock through the 'Right to Buy'.
- 3.4 In respect of Regulation 34(3)(b), the Local Plan was adopted in 2007, and it is confirmed that since 2006, 3865 net dwellings have been completed, including 851 gross affordable dwellings between 2006 and 2014.
- 3.5 To break down the figures for more recent times in detail, the tables below show the total number of dwelling completions in North Kesteven for the period 1st April 2006 to 31st March 2015. The net cumulative total and annual average completions since 2006 is also set out below. This data shows that the annual average peaked at 595 in 2007/08 and has fallen since, now standing at 429 for 2014/15.

Table 3 – North Kesteven net dwelling completion totals since Local Plan Adoption 2007

Net dwelling completion totals since North Kesteven Local Plan Adoption 2007	2006/07	2007/08	2008/09	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15

2013/14	3422	428
2014/15	3865	429

Gypsy and Traveller pitches

- 3.6 The Central Lincolnshire Gypsy and Travellers accommodation assessment 2013 summarises accommodation needs in central Lincolnshire and North Kesteven. 7 additional pitches within North Kesteven were identified as being required in the first 5 years (2013-2018). Monitoring information relates to the delivery of pitches for Gypsy and Traveller families. For the purposes of monitoring, a pitch is defined as an “area of land demarked for the use as accommodation by a single Gypsy and Traveller household, sometimes including extended families which may require space, within one pitch, to provide for more than one caravan.” (Core Output Indicators - Update 2/2008).
- 3.7 Table 6 details the net total number of pitches available for use in North Kesteven since 2007. For the 2014/15 monitoring period there were no additional pitches granted planning permission in the district.

Table 6 - Gypsies and Travellers and Travelling Show people pitches in North Kesteven

Net Pitches for Gypsies & Travellers granted planning permission	2007/08	2008/09	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15	Current Total
Permanent Planning Permission	0	0	0	28	0	0	0	0	28
Temporary Planning Permission	0	0	28	-28	0	0	0	0	0
Caravans on Travellers own land – ‘tolerated’	0	0	0	0	0	0	2	0	2

Affordable housing completions (Gross)

- 3.8 Affordable housing is monitored as gross completions (see earlier commentary). Between 1 April 2014 and 31 March 2015 there were 88 affordable dwelling completions which represents approximately 19.7% of total net dwelling completions in that year.
- 3.9 Table 7 sets out affordable housing completions over the past 9 years.

Table 7 – Affordable Housing Completions (Gross) 2007-2015

Gross Affordable Dwellings Completed	2006/07	2007/08	2008/09	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15
Total number of all dwellings completed	584	605	432	502	511	322	322	239	447
Gross number of affordable dwellings completed	3	79	110	122	205	81	148	15	88
Percentage of total dwellings completed that are affordable	0.5%	13.1%	25.5%	24%	40%	25%	46%	6%	19.7%

Right to buy sales

3.10 North Kesteven district currently owns 3830 homes. 10 properties have been sold during the monitoring period under the Right to Buy scheme. This is a reduction from the previous two years figures. Since the start of the Local Plan period, 80 Council owned properties have been sold under the Right to Buy scheme.

Table 8 – Right to buy sales of publically owned housing stock in North Kesteven

Right to buy sales	Total Stock	Gross right to buy sales	Cumulative right to buy sales
2006/07	3841	11	11
2007/08	3839	8	19
2008/09	3811	2	21
2009/10	3805	7	28
2010/11	3819	4	32
2011/12	3827	3	35
2012/13	3832	18	53
2013/14	3828	17	70
2014/15	3830	10	80

Housing Land Supply in North Kesteven

3.12 At 31st March 2015 North Kesteven has a deliverable housing supply of 4577 dwellings. The council is working with partner authorities to identify and assess additional land for housing in and around the district, also exercising its duty to co-operate with other authorities to develop the level of housing required.

Regulation 34(4) – neighbourhood planning

34. (4) Where a local planning authority have made a neighbourhood development order or a neighbourhood development plan, the local planning authority's monitoring report must contain details of these documents.

3.13 To meet Regulation 34(4), it is confirmed that no neighbourhood development plans or orders were made ('adopted') in the monitoring period. In addition to Billingham, Welbourn and Hykeham (North and South), Basingham, Dunston, Potterhanworth and Nocton, Silk Willoughby and Thorpe on the Hill have also designated an area during the monitoring period. However no neighbourhood plans have been adopted.

Regulation 34(5) - Community Infrastructure Levy (CIL)

34. (5) Where a local planning authority have prepared a report pursuant to regulation 62 of the Community Infrastructure Levy Regulations 2010(2), the local planning authority's monitoring report must contain the information specified in regulation 62(4) of those Regulations.

3.14 For the purpose of Regulation 34, it is confirmed that the Authority does not yet have a Community Infrastructure Charge in place and as such has not yet produced any reports as required under regulation 62 of the Community Infrastructure Regulations 2010. The Authority has however been working towards developing a CIL charge during this monitoring period. In order to contribute to an aligned approach to funding community needs arising from growth proposals across Central Lincolnshire, the Central Lincolnshire Authorities agreed that their charging schedules are to be prepared together and aligned, so that they can be examined and subsequently adopted at the same time. The programme for delivering a CIL charge is outlined in the 2014-2016 LDS and progress against this will be undertaken in future AMRs;

Table 9 - Summary of CIL programme

Community Infrastructure Charging Schedules	LDS 2014-2016 target date	Progress during AMR period 2014-15
Review of Baseline Assessments and Non CIL Funding	February – August 2014	Work commenced
Periodic review of levels of s106	April – May 2015 April – May 2016	Annual review carried out May 2015
Key site infrastructure and viability assessments	September 2014 – June 2015	-----
Regulation 123 list agreed and published	July – August 2015	-----
Preliminary Draft Charging Schedule	July – August 2015	-----
CIL Draft Charging Schedule	January – February 2016	-----
CIL Submission	April 2016	-----
CIL Examination	July 2016	-----
CIL Inspectors Report	September 2016	-----
CIL Adoption	November 2016	-----

Regulation 34(6) – Duty to Cooperate

34. (6) Where a local planning authority have co-operated with another local planning authority, county council, or a body or person prescribed under section 33A of the Act, the local planning authority’s monitoring report must give details of what action they have taken during the period covered by the report.

Duty to Cooperate: Joint Plans or other applicable Strategies

- 3.15 This “Duty to co-operate” requires local planning authorities and prescribed public bodies to work together, through engaging constructively, actively, and on an ongoing basis, with regard to strategic matters and supporting activities that relate to the preparation of development plan documents. A strategic matter is defined as sustainable development or use of land or infrastructure that has or would have a significant impact on at least 2 planning areas.
- 3.16 The National Planning Policy Framework (NPPF, March 2012) builds on the requirements of the Localism Act, stating that public bodies have a duty to co-operate on planning issues that cross administrative boundaries (Para 178), and identifies strategic priorities for Local Plans (Para 156).
- 3.17 The duty is principally aimed at ensuring that adjoining Councils work together to produce ‘joined up’ plans in the absence of future guidance from the strategic level (e.g. Regional Plans) and that public bodies work together in respect of the delivery of a Plan. The duty is to co-operate and engage not necessarily to agree.

- 3.18 During the monitoring period the formal consultation on the Preliminary Draft version of the Local Plan was carried out between the 1st October and the 11th November 2014. All neighbouring authorities and public bodies were formally consulted by post or e-mail during this time and representations were received.
- 3.19 Engagement on key cross boundary strategic planning issues, challenges and priorities is something that has happened historically and remains a priority as an active and ongoing process with both neighbouring authorities and public bodies. This will continue to happen throughout the production of the Central Lincolnshire Local Plan meeting the duty to co-operate requirements.

4.0 The Economy in North Kesteven

Additional employment floor space

- 4.1 This indicator relates to the amount of additional floor space completed within the monitoring period.
- 4.2 A piece of secondary legislation groups types of use of premises into classes, so that no planning permission is required if a building is changed from one use to another within the same class. Employment Land for the purposes of this monitoring indicator is defined as uses B1, B2 and B8 (see table below for categories).
- 4.3 Table 10 shows the additional floor space created for employment in North Kesteven over the period from the 1st April 2009 to the 31st March 2015.
- 4.4 6237.30 square metres of additional employment floorspace was completed during the monitoring period. This figure is line with the previous year. Developments in this monitoring period include the expansion of both Moy Park in Anwick and Tulip in Ruskington and new workshop at Five Mile Lane, Washingborough. 75.25% of completed floorspace was located on previously developed land in this monitoring period.
- 4.5 There are a number of developments currently under construction including the redevelopment of office space and a new storage unit in North Hykeham along with speculative units at Teal Park. It is therefore expected that there will be a higher level of completed floorspace in the next monitoring period as a result.

Table 10 - Additional Employment Floor space

Employment Floorspace Developed (m2)						
Land Use Type	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15

Completed floor space for “town centre uses”

- 4.6 This information relates to the amount of floor space created for “Town Centre Uses”. This data includes both Sleaford town centre and the rest of the district.
- 4.7 The level of floorspace developed for town centre uses has reduced compared with the previous monitoring period. The figure is expected to be maintained at this level moving forward to 2015/16. Two developments are currently underway at Doddington Hall and South Hykeham.

Table 12 – Floor space developed for “town centre uses”

Town Centre Uses Developed (A1, A2 & D2) (m2)

European or International Designations

Special Areas of Conservation (SAC)

- 5.1 SACs are sites designated under the EU Habitats Directive (Council Directive 92/43/EEC on the Conservation of Natural Habitats and of Wild Fauna and Flora). North Kesteven contains no areas of land covered by SACs.

Special Protection Areas (SPA)

- 5.2 SPAs are sites designated under the EU Birds Directive (Council Directive 79/409/EEC on the Conservation of Wild Birds). North Kesteven contains no areas of land covered by SPAs.

Ramsar Sites

- 5.3 Ramsar sites are sites designated under the Ramsar Convention on Wetlands of International Importance. North Kesteven contains no areas of land covered by Ramsar sites.

National Designations

Local Nature Reserves (LNR)

- 5.4 LNRs are designated by Natural England and the relevant local authority. They are publicly accessible areas. There are 2 Local Nature Reserves in North Kesteven. No new Local Nature Reserves have been designated and there has been no amendments to the existing sites.

Table 13 – Local Nature Reserves in North Kesteven

Local Nature Reserve	Total Area (ha)
Lollycocks Field, Sleaford	2.1
Whisby Nature Park, Whisby	87.03

Table 14 – Local Nature Reserves per 1000 people in North Kesteven

Information on LNR	Data
Local Nature Reserve Total Area in North Kesteven (ha)	89.13
Population in North Kesteven (figure from ONS Population Estimates 2013)	109,900
Local Nature Reserve area per 1000 people (ha)	0.81

Sites of Special Scientific Interest (SSSI)

5.5 SSSIs are protected under the Wildlife and Countryside Act 1981. There are 7 SSSIs in North Kesteven including Potterhanworth Wood, High Dyke, Metheringham Heath Quarry, Wilsford Heath Quarry, Wilsford & Rauceby Warrens, Doddington Clay Woods and Copper Hill, Wilsford.

SSSI Condition Assessment

5.6 SSSIs are divided up into areas known as SSSI units and these units are monitored for their condition by Natural England. The condition of a SSSI unit is deemed to fall into one of five categories - favourable, unfavourable recovering, unfavourable no change, unfavourable declining and destroyed/part destroyed. The condition of SSSIs in the district is shown below by percentage area of total SSSI in each state. The majority of designated land is in a favourable or unfavourable but recovering condition. Of the total 156.73 hectares of designated land, 16.19 hectares (Wilsford Heath Quarry) is in an unfavourable declining condition which is an overall percentage of 10.3%. No new condition data has been provided during this monitoring period.

Table 15 – SSSI Condition Assessment

SSSI Site	Area (ha)	Favourable	Unfavourable – Recovering	Unfavourable – No change	Unfavourable - Declining	Partially Destroyed	Destroyed	Not Assessed
Potterhanworth Wood	33.08	100%						
High Dyke	6.77		100%					
Metheringham Heath Quarry	12.75	100%						
Wilsford Heath Quarry	16.19				100%			
Wilsford & Rauceby Warrens	57.42		100%					
Doddington Clay Woods	23.88	100%						
Copper Hill, Wilsford	6.64	70.05%	29.95%					

Non-Statutory Sites

County Wildlife Sites (CWS) in North Kesteven

5.7 County Wildlife Sites are identified because their flora, fauna, geological or geophysical features are of County-wide importance. They are designated by the Council, following advice from the Lincolnshire Wildlife Trust. There are 44 sites currently identified. No new County Wildlife Sites have been designated during the monitoring period and no existing sites have been lost.

Local Wildlife Sites (LWS) in North Kesteven

5.8 Local Wildlife Sites and Local Geological Sites are sites selected by the Greater Lincolnshire Nature Partnership GLNP (a group of partnership organisations and individuals affiliated to the Greater Lincolnshire Biodiversity Partnership). LWSs have no statutory protection but are recognised as a material consideration. There are 152 locally designated sites in North Kesteven. The proportion of local sites where positive conservation management is being achieved is a proxy measure of local biodiversity and is used by central government to assess the performance of local authorities. In this monitoring period 49% of sites within North Kesteven are in positive conservation management. An additional 7 Local Wildlife Sites have been designated during the monitoring period.

Table 16 – Sites with local environmental designations

Information on Locally designated sites	Data
Local Wildlife Sites	144
Local Geological Sites	8
Sites where positive conservation management is being achieved	74 (49%)

Renewable Energy Generation

5.9 This data looks at the energy generation capacity provided from renewable energy sources granted planning permission during the monitoring period. The significant majority of schemes providing energy generation were solar, the largest scheme being a solar park at Scopwick which has the potential to generate 49.95MW of electricity. Six biomass schemes were granted planning permission, the largest at Burton Pedwardine providing 3582kW. A single wind turbine at Norton Disney was allowed on appeal during the monitoring period.

Table 17 – Non-domestic Renewable Energy Projects granted planning permission during 2014/15

Type of Renewable Energy	Energy Production (kW)	Site Area (ha)
Biomass	14,440	41.77
Photovoltaic	50,057,782.98	236.8
Wind	500	0.83

Co2 Emissions in North Kesteven in Lincolnshire

5.10 Table 18 below identifies the local CO2 emission estimates for North Kesteven and surrounding districts in Lincolnshire. The figure for North Kesteven has been relatively stable between 2011 and 2013 only varying by 0.1 tonnes per annum per capita. There is a 2 year delay in receiving this information.

Table 18 – Local CO2 emission estimates

Local Authority Area	Estimates of CO2 emissions in Tonnes/annum per capita (ie per head of population)							
	2006	2007	2008	2009	2010	2011	2012	2013
Boston	8.1	7.8	7.5	7	7.2	6.5	6.7	6.2
East Lindsey	7.9	7.7	7.5	7.1	7.4	6.8	7	6.7
Lincoln	6.2	6	5.8	5.1	5.2	4.7	5.1	4.8
North Kesteven	7.6	7.5	7.3	6.7	7	6.3	6.5	6.4
South Holland	8.5	8.3	8.2	7.5	7.8	7	7.5	7.3
South Kesteven	9.3	8.9	8.5	7.8	8.2	7.6	7.6	7.5
West Lindsey	8	7.6	7.4	7	7.2	6.7	7.1	6.8

6.0 Conclusion and Next Steps

6.1 This is the fifth AMR where North Kesteven has been part of the Central Lincolnshire Local Plan Team. This AMR reports performance against Core Output Indicators, indicators set by the previous Government to monitor local planning authority performance. It is important to continue to monitor performance to measure the effectiveness of our policies and decisions. The Central Lincolnshire Local Plan Team will be working with others on developing local indicators and targets as part of the Local Plan which will form the basis of future AMRs. In addition, future AMRs will be informed by any approach enacted by the Localism Bill and any future national policy and guidance.
