1. INTRODUCTION

- 1.1. The National Planning Policy Framework (NPPF) includes a requirement for local planning authorities to identify and update annually a supply of specific deliverable sites sufficient to provide five years' worth of housing against their housing requirements.
- 1.2. This report sets out the five year land supply position for Central Lincolnshire for the period 2019 to 2024. The 'current year' (2018/19) is not used in the calculation of the five year supply. This is to ensure that at any point during the current year the Five Year Land Supply Report will include a full five year supply of land. This report is based on monitoring data as at 31 March 2018 and as provided by each district within Central Lincolnshire.
- 1.3. This report sets out the details of:
 - the national and local policy context for calculating the five year supply;
 - the housing requirement for Central Lincolnshire during the five year period taking into account any necessary past undersupply and buffers as required by national policy;
 - the anticipated supply of homes across Central Lincolnshire in the five year period; and
 - the calculation of the five year housing land supply position for Central Lincolnshire.

2. POLICY CONTEXT

NATIONAL CONTEXT

- 2.1. The NPPF was originally published in 2012 and was subsequently revised in July 2018. This revised version included substantive amendments to the policy requirements in relation to housing land supply and it also introduced a number of other new policy requirements relating to plan-making and decision taking.
- 2.2. Paragraph 73 of the NPPF requires local planning authorities to identify and update annually a supply of "*specific, deliverable sites sufficient to provide a minimum of five years worth of housing against their housing requirement set out in adopted strategic policies.*"
- 2.3. The NPPF goes onto define what is to be considered 'deliverable' in its glossary:

"To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. Sites that are not major development, and sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (e.g. they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans). Sites with outline planning permission, permission in principle, allocated in the development plan or

identified on a brownfield register should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.”

- 2.4. Paragraph 73 also requires local planning authorities to “*include a buffer (moved forward from later in the plan period) of:*
- *5% to ensure choice and competition in the market for land; or*
 - *10% where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year; or*
 - *20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of achieving the planned supply.”*
- 2.5. The NPPF stipulates in footnote 39 that the 20% buffer in option c) is measured against the Housing Delivery Test from November 2018, where this indicates that delivery was below 85% of the housing requirement.
- 2.6. The NPPF also allows for incorporation of a windfall allowance in the five year period in paragraph 70, where there is compelling evidence that they will provide a reliable source of supply. Any windfall allowance should be realistic having regard to the strategic housing land availability assessment, historic delivery rates and expected future trends.
- 2.7. Additional planning guidance is provided in the National Planning Practice Guidance (PPG), originally introduced in 2014 with relevant sections on housing requirements and housing supply updated on 13 September 2018 following the publication of the revised NPPF.
- 2.8. The PPG builds on the requirements of the NPPF providing substantial detail of what is expected of local planning authorities in order to demonstrate a five year supply of housing. This five year land supply report seeks to satisfy the requirements of both the new NPPF and the detailed guidance. Rather than duplicating the guidance here specific reference to national policy and guidance is drawn out in relevant sections detailing the Central Lincolnshire five year land supply position in this report.

THE LOCAL CONTEXT

- 2.9. The Central Lincolnshire Local Plan was adopted on 28 April 2017, covering the period 2012-2036. It is a joint plan covering the administrative areas of City of Lincoln, North Kesteven and West Lindsey.
- 2.10. The Local Plan introduced a housing requirement for Central Lincolnshire of 36,960 dwellings across the plan period which equates to 1,540 dwellings per year. This housing requirement is a Central Lincolnshire requirement and it has not been divided up into separate requirements for each of the local planning authorities in the area.
- 2.11. The Local Plan allocates more than 100 sites ranging from 25 dwellings in size to the sustainable urban extensions, the largest of which is anticipated to deliver approximately 6,000 homes and supporting infrastructure for the area. These sites are located in the top four tiers of the settlement hierarchy (Lincoln Urban Area, Main Towns, Market Towns and Large Villages) and only sites of 25 or larger were considered for allocation.

- 2.12. Sites coming forward in ‘Medium Villages’, ‘Small Villages’ and elsewhere do not have sites allocated, instead through policies LP2 and LP4 a growth level was established for each village to understand the amount of development that could take place depending upon the size of the settlement and the services available. Sites delivered through these flexible policies make up an important part of the supply, and are accounted for as windfall, taking into account the permissions granted and homes built as detailed in this report.
- 2.13. Furthermore, a substantial part of the housing supply comes from small sites in urban areas. Local Plan Policy LP2 supports the principle of delivery of new homes in the top four tiers of the settlement hierarchy. However, as is detailed in this report, account has only been taken of small sites in the Lincoln Urban Area, meaning that no windfall assumptions have been made about small sites in the Main Towns, Market Towns or Large Villages.

3. THE FIVE YEAR REQUIREMENT

- 3.1. Paragraph 73 of the NPPF and 030 of the PPG¹ make it clear that for areas with a Local Plan that has been adopted within the last five years, the housing requirement set out in the strategic policies should be used for calculating the five year supply.
- 3.2. The Central Lincolnshire Local Plan identifies a housing requirement for 36,960 dwellings between 2012 and 2036 (or 1,540 dwellings per year over the 24 year plan period). This requirement was based on evidence in the Strategic Housing Market Assessment (SHMA) July 2015.

The basic five year land supply requirement between 2012 and 2036 is therefore 7,700 dwellings, as summarised in Table 1.

Table 1: The Basic Five Year Land supply requirement 2019 to 2024

a	Housing Requirement 1 April 2012 to 31 March 2036 (24 year period)	36,960	
b	Average per year	1,540	a ÷ 24
c	Basic five year requirement	7,700	b x 5

PAST COMPLETIONS AND SHORTFALL/SURPLUS

- 3.3. However, the PPG also requires that any past shortfalls should also be taken into account in the five year supply. For Central Lincolnshire this means looking at completions since the start date of the Local Plan (1 April 2012), and any under or over-supply during that period. Between 1 April 2012 and 31 March 2018 a total of 5,718 dwellings were completed as is shown in Table 2 below.

¹ Reference ID: 3-030-20180913

Table 2: Completions 2012 to 2018

	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18	Total
City of Lincoln	233	236	166	235	188	191	1,249
West Lindsey	256	289	378	284	300	259	1,766
North Kesteven	348	379	458	473	468	577	2,703
Completions	837	904	1,002	992	956	1,027	5,718

- 3.4. This represents an undersupply of 3,522 dwellings when compared against the basic requirement of 1,540 dwellings per year.
- 3.5. An estimate of the supply against the requirement for the current year 2018/19 also needs to be factored in. It is estimated that 1,270 dwellings will be delivered in the current year (2018/19). This represents an undersupply of 270 dwellings when compared against the requirement for 1,540. However, as is detailed in section 4 and in Appendix C4, given the changes to the Planning Practice Guidance there is additional development of communal accommodation, which is expected to release 91 dwellings (using the government methodology), increasing the expected delivery to 1,361. This reduces the shortfall to 179 dwellings in 2018/19.
- 3.6. The shortfall will need to be added onto the housing requirement. During the examination of the Central Lincolnshire Local Plan, the Inspectors approved the use of the 'Liverpool' method of dealing with the shortfall in Central Lincolnshire. This means that the shortfall can be spread across the remaining years of the plan period to 2036. When the total shortfall from 2012-2019 of 3,790 dwellings is spread across the remaining years of the plan period from 2019/20 – 2035/36 this means that 223 dwellings per year (rounded from 222.9 dwellings per year) should be added to the annualised housing requirement of 1,540 dwellings to give a new requirement of 1,763 dwellings per year. Over the five year period this adds an additional 1,115 dwellings to the requirement increasing it to 8,815 as is demonstrated in Table 3 below.

Table 3: Undersupply 2012 to 2019

d	Net completions 1 April 2012 to 31 March 2018 (6 year period)	5,718	See Table 2
e	Target delivery for 1 April 2012 to 31 March 2018 (6 year period)	9,240	b x 6
f	Surplus or shortfall for 2012 to 2018	-3,522	d - e
g	Estimated completions current year (2018/19)	1,361	See table 12
h	Estimated difference for 18/19 compared with 1,540 requirement	-179	g - b
i	Total surplus / shortfall 2012/13 to 2018/19	-3,701	f + h
j	Amount of shortfall to be included in the five year requirement	1,089	(i / 17) x 5
k	Five Year requirement taking into account shortfall 2012-18 and anticipated shortfall in 2018/19	8,789	c + j

ADDING BUFFERS

- 3.7. In addition to the five year requirement, paragraph 73 of the NPPF requires local authorities to include a 5% buffer to ensure choice and competition in the market for land; or 10% where the local planning authority wishes to demonstrate a five year supply through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year; or where there has been a record of persistent under-delivery of housing, the buffer should be increased to 20%. Footnote 39 of the NPPF makes it clear that persistent under-delivery will be measured against the Housing Delivery Test (HDT) from November 2018.
- 3.8. It is made clear in the NPPF that these buffers are moved forward from later in the plan period and is not an additional requirement for more housing. The PPG also makes clear in paragraph 037² that only one of the buffers should apply and that they are not cumulative.
- 3.9. The PPG and the HDT Rule Book detail the process for calculating HDT. This introduces a delivery test across the past three years to consider how much housing has been delivered against the housing requirement. Paragraph 12 of the HDT Rule Book also makes it clear that, for the purposes of the HDT, the housing requirement to be used is the lower of the adopted housing requirement in a Local Plan or the newly introduced annual local housing need figure – based on a national standardised method of calculating local housing need.
- 3.10. Paragraphs 21 and 22 of the HDT Rule Book also introduces transitional arrangements so that in place of the new local housing need figure, household projections should be used for the years 2015-16, 2016-17 and 2017-18. It also stipulates that for 2015-16 and 2016-17 the 2012 household projections should be used and the 2014 projections should be used for 2017-18, taking the annual average over a 10 year period as is set out in Table 1 of the HDT Rule Book.
- 3.11. For Central Lincolnshire the housing requirement in the Local Plan (1,540 dwellings per year) is higher than the Office for National Statistics household projections, which are shown in Table 4 below:

Table 4: HDT results against ONS Household Projections

Year	Requirement	Delivered³	Percentage
2015/16	984 ⁴	933	94.8%
2016/17	976 ⁵	924	94.7%
2017/18	978 ⁶	1,102 ⁷	112.7%
Total	2,938	2,959	100.7%

² Reference ID: 3-037-20180913

³ The delivered dwellings in Table 4 is the figure provided to MHCLG for Housing Flow Reconciliation (HFR) returns which will be used for the HDT calculation. It should be noted that the past completions figures in Table 2 differs from these figures as a result of the information available at the time of the HFR returns being submitted and the information in Table 2 is the correct figure for completions.

⁴ Based on 10 year average of 2012 household projections 2015-2025

⁵ Based on 10 year average of 2012 household projections 2016-2026

⁶ Based on 10 year average of 2014 household projections 2017-2027

⁷ Based on the net additional dwellings submitted in the Housing Flow Reconciliation returns in September 2018.

- 3.12. Table 4 shows that, following the HDT Rule Book methodology, the Central Lincolnshire housing supply has surpassed the household projections across the three years. Therefore, the correct buffer to be applied in Central Lincolnshire is 5%. This buffer should be added against both the basic housing requirement and any shortfalls in the plan period as is made clear in paragraph 037 of the PPG⁸.
- 3.13. Table 5 shows the application of the 5% buffer on the housing requirement.

Table 5: Five year land supply including backlog and twenty percent buffer

l	Five percent buffer	439	$k \times 0.05$
m	Total five year land supply requirement taking into account buffer	9,228	$k + l$
n	Average per year	1,846	$m \div 5$

The five year land supply requirement for 2019 to 2024 is therefore 9,228 dwellings.

4. THE FIVE YEAR SUPPLY

- 4.1. Now that the requirement is known, taking into account shortfall and buffers, it is necessary to assess the supply of deliverable housing sites in Central Lincolnshire.

SITES IN THE SUPPLY

- 4.2. As is detailed in the NPPF, only deliverable sites can be included. For a site to be considered deliverable it *'should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years'*.
- 4.3. Deliverable sites can come from a range of sources of information, for example through allocations in the Local Plan, or sites where full or outline permission have been granted, for example. Through monitoring it is possible to present robust, up to date information on the sites that make up the Central Lincolnshire land supply, and to understand which sites are deliverable and how many homes will be delivered in the five year period.
- 4.4. The NPPF glossary details that for sites that are not major development (i.e. fewer than 10 dwellings, or smaller than 0.5 hectares in size) and for sites where detailed planning permission has been granted, these should be considered deliverable until such time as permission expires, unless there is clear evidence that they are no longer deliverable. The glossary and the revised PPG stipulates that sites of 10 or more dwellings (or 0.5 hectares or larger), or without detailed planning permission should only be considered deliverable where there is evidence that housing completions will begin on site within 5 years.

⁸ Reference ID: 3-037-20180913

- 4.5. The Central Lincolnshire Five Year Land Supply is made up of sites that accord with the NPPF requirements including sites with permission and sites allocated in the adopted Local Plan. Officers at North Kesteven, West Lindsey and City of Lincoln have assessed each of the individual sites with regards to the expected timescales for delivery.
- 4.6. Appendix C provides a list of all sites included in the five year supply and the expected delivery rate. These are separated out according to the site status as follows:
- Non-major development sites (i.e. less than 10 dwellings or smaller than 0.5 hectares);
 - Major development sites with detailed permission granted; and
 - Major development sites with outline permission granted or that are allocated without permission at this time.

More information is provided against sites with outline permission and sites without permission at this time where they are expected to deliver within the five year period. There are also many sites which are not included in the five year supply, due to an absence of evidence that they will be delivered within the five year period. Many of these sites are unconstrained and could also come forward within the five year period. Officers will continue to liaise with land owners, agents and developers to understand the latest position on sites in the supply.

- 4.7. In Appendix C, where a site already has planning permission, the dwelling figure is that for which permission was granted. Where a site is under construction, the outstanding dwelling figure shown is the remaining number still to be completed (at 1 April 2018) in accordance with the permission. For sites that are allocated but do not yet have planning permission the figure used is the 'indicative dwelling' set out in the adopted Central Lincolnshire Local Plan, unless through other discussions with land owners or through pre-application discussion or a live planning application it is clear that an alternative capacity is more appropriate.

WINDFALL ALLOWANCE

- 4.8. The NPPF⁹ states that '*where an allowance is to be made for windfall sites as part of anticipated supply, there should be compelling evidence that they will provide a reliable source of supply. Any allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends*'. The Local Plan allocates sites of 25 dwellings or more, therefore there is justification for including a windfall allowance for small sites below 25 dwellings. The inclusion of these sources of windfall were endorsed by the Local Plan Inspectors.
- 4.9. This windfall allowance can be divided into two categories:

⁹ NPPF revised July 2018 - Paragraph 70

Small Sites in the Lincoln Urban Area

- 4.10. An allowance of 75 dwellings per year for small sites, starting in 2020/21, is allowed for in the Lincoln urban area.
- 4.11. This assumption covers small sites across the Lincoln Urban Area and it is based on previous completions on small sites solely within the administrative boundary of City of Lincoln. In the City of Lincoln sites of fewer than 25 dwellings have made up, and continue to make up, an important part of the land supply. The historic delivery on these sites is as follows:

Table 6: Historic delivery on sites below 25 dwellings in the City of Lincoln

06/07	07/08	08/09	09/10	10/11	11/12	12/13	13/14	14/15	15/16	16/17	17/18
113	128	187	102	88	257	75	98	104	136	101	94

- 4.12. This shows the consistency at which small sites come forward in the City of Lincoln with 75 dwellings being the smallest across this 12 year period, significantly below the mean average of 124 dwellings. Furthermore, this allowance does not include delivery on small sites in parts of the Lincoln urban area which are within North Kesteven and West Lindsey and for which Local Plan policies would, in principle, encourage residential development on suitable small sites, and therefore could reasonably be assumed to come forward.
- 4.13. No windfall allowance on these small sites are included in years 2018/19 and 2019/20 as it is assumed that they would already have planning permission and therefore have already been accounted for in the commitment data.
- 4.14. This windfall allowance is very conservative when it is considered what has been, and what will continue to be, delivered in the Lincoln Urban Area, especially when the parts of the Lincoln Urban Area outside of the City of Lincoln administrative area are also considered.

Small Sites in Smaller Settlements and the Rural Area

- 4.15. Under Policies LP2 and LP4 of the adopted Local Plan some development on small sites is supported in principle on suitable sites up to an assigned growth level for each 'Medium Village' and 'Small Village' in the settlement hierarchy. This is a valuable element of the supply and is therefore appropriate to include in the five year supply as windfall. It should be noted that these growth levels are not a target for small and medium villages, but instead guide what level of growth would be acceptable in total in a settlement across the plan period, should all other policy requirements be satisfied and the site be deemed appropriate for the proposed development.
- 4.16. Looking back at recent delivery in these medium and small villages it is clear that delivery has been fairly consistent.

Table 7: Growth from Medium and Small Villages

Year	2015/16	2016/17	2017/18	2018/19	2019/20
Dwellings delivered	142	136	107		
Dwellings anticipated from permissions				98	297

- 4.17. In order to include a windfall allowance from this source, the remaining growth level at the end of the current monitoring year (2017/18) for all Medium Villages and Small Villages has been established and this has been distributed evenly across the remaining years of the plan period.
- 4.18. No windfall allowance on these small sites are included in years 2018/19 and 2019/20 as it is assumed that they would already have planning permission and therefore have already been accounted for in the commitment data.
- 4.19. The total remaining growth in Small Villages and Medium Villages at 1 April 2018 was 1,498 dwellings. When aggregated across the remaining 16 years of the plan period (when 2018/19 and 2019/20 are excluded) this gives an allowance of 94 dwellings per year. Whilst this approach takes the entire remaining growth level across all villages and spreads it across the plan period, the delivery of the plan is not reliant on the growth levels being achieved in all settlements. It should be noted that the 94 dwellings included in the supply from 2020/21 is lower than the lowest amount of growth recorded in these villages since 2015/16.

Other small sites

- 4.20. No other windfall allowances have been included for growth from small sites in any other towns or villages (levels 2-4 of the settlement hierarchy) or in hamlets (level 7 of the hierarchy) despite the fact that the Local Plan policies provide in-principle support for some development in suitable locations in many of these settlements.
- 4.21. Development on sites of fewer than 25 dwellings have delivered a significant amount of growth in these locations and they are anticipated to continue as is shown in Table 8 below.

Table 8: Completions from small sites in Lincoln Urban Area (excluding in City of Lincoln), Main Towns, Market Towns, Large Villages, Hamlets and the Countryside.

Year	2015/16	2016/17	2017/18	2018/19	2019/20
Dwellings delivered	193	167	191		
Dwellings anticipated from permissions				132	268

- 4.22. This shows that there are additional sources of potential supply which will continue to deliver growth. The overall windfall allowance (at 169 dwellings per year from the small sites in the City of Lincoln area and Medium and Small Villages) across three council areas is therefore considered a very conservative estimate, and will be exceeded in reality. Based on the past completions since 2015/16, sites of less than 25 dwellings provided an average of 422 dwellings per year (471 in 2015/16, 404 in 2016/17, and 392 in 2017/18) and this trend will undoubtedly continue given the flexibility provided by the Local Plan and the housing market in Central Lincolnshire.

- 4.23. Taking the evidence into account, it is clear that the windfall allowance is extremely conservative and is justified to continue to be included in the housing supply. Furthermore, given the scale of the discount included, an increased figure could be justified for inclusion. However, it is not proposed to be increased for the purposes of this report.

STUDENT AND OTHER COMMUNAL ACCOMMODATION

- 4.24. The revised guidance in the PPG now clarifies how local planning authorities should address student accommodation and other communal accommodation such as older person's housing in residential institutions.

- 4.25. Paragraph 042 of the PPG¹⁰ stipulates that:

“All student accommodation, whether it consists of communal halls of residence or self-contained dwellings, and whether or not it is on campus, can be included towards the housing requirement, based on the amount of accommodation it releases in the housing market... To establish the amount of accommodation released in the housing market, authorities should base calculations on the average number of students living in student only households, using the published census data. This should be applied to both communal establishments and to multi bedroom self-contained student flats. Studio flats in mixed developments designed for students, graduates or young professionals should be counted as individual completions”

- 4.26. This is similar for older people's housing completions in paragraph 043¹¹ which states that:

“Local planning authorities will need to count housing provided for older people, including residential institutions in Use Class C2, against their housing requirement. For residential institutions, to establish the amount of accommodation released in the housing market, authorities should base calculations on the average number of adults living in households, using the published census data.”

- 4.27. It is therefore important to obtain and apply these ratios for the Central Lincolnshire context so that any communal accommodation can be properly accounted for in any calculations. Appendix A provides the calculations for establishing the ratios for Central Lincolnshire for both student and older persons housing in residential institutions, these ratios are replicated in Table 9 below.

Table 9: Student accommodation and residential institutions ratios

District	Student dwelling ratio	Residential institution ratio
City of Lincoln	2.90	1.8
North Kesteven	2.26	1.8
West Lindsey	2.01	1.8

¹⁰ Reference ID: 3-042-20180913

¹¹ Reference ID: 3-043-20180913

- 4.28. Student accommodation and residential institutions have previously not been accounted for in land supply calculations in Central Lincolnshire. However, with the revised PPG providing greater clarity on the matter, it is now considered appropriate to take account of their delivery. Table 10 indicates the number of bedrooms delivered in student accommodation and in residential institutions over the past 3 monitoring years.

Table 10: No. of bedrooms delivered

Year	Type	City of Lincoln	North Kesteven	West Lindsey	Conversion using ratio ¹²
2015/16	Student accommodation	519			179
	Residential Institution			66	37
2016/17	Student accommodation				
	Residential Institution		8	8	9
2017/18	Student accommodation				
	Residential Institution	53	4	2	33
Total	Student accommodation	519			179¹³
	Residential Institution	53	12	76	78¹⁴

- 4.29. This shows that over the past three years a total of 257 general purpose dwellings have been released to the market following construction of these forms of communal accommodation. The details of the permissions that make up this provision are provided in Appendix B.

- 4.30. Furthermore, there are a number of sites for which permission for student accommodation or residential institutions has been granted and which are anticipated to be delivered in the five year period. Table 11 below indicates the number of bedrooms provided in each type of accommodation.

Table 11: Number of bedrooms in communal accommodation with permission

District	Student bedrooms	Dwellings released	Communal accommodation	Dwellings released	Total dwellings released
City of Lincoln	1,444	498	72	40	538
North Kesteven			154	86	86
West Lindsey	86	43			43
Total	1,530	541	226	126	667

¹² Using the conversion ratios in Table 9 against the number of bedrooms delivered.

¹³ 519 student accommodation units divided by the City of Lincoln ratio (2.9).

¹⁴ 141 residential institution units divided by the Residential Institution ratio (1.8).

- 4.31. Details of the permissions making up this supply are provided in Appendix C4.
- 4.32. For the purposes of assessing the five year land supply, communal accommodation is not being included in the past supply. This supply is included as part of the HDT but the guidance does not stipulate that it can be added against previous delivery in assessing shortfall. However, as the PPG is clear about including these uses as part of the five year supply, the growth in purpose-built student accommodation and residential institutions is being included against future delivery once the appropriate ratios have been applied to understand the amount of housing that will be released as a result of its construction. This supply, 667 dwellings as detailed in Table 11, is included in Table 12 where it is anticipated to come forward in the five year period, and details of the permissions making up this supply are provided in Appendix C4.

5. CALCULATING THE FIVE YEAR SUPPLY

5.1. The following table provides a summary of the five year supply of deliverable housing sites based on site status at 31 March 2018. Full details are set out in Appendix C.

Table 12: Estimated supply for 'current year' and in five year period

Type of permission	2018/19 Current year	2019/20 Yr 1	2020/21 Yr 2	2021/22 Yr 3	2022/23 Yr 4	2023/24 Yr 5	Estimated total in five years
Small sites with permission	250	476	439	140	6	8	1,069
Large sites with detailed permission	975	1,182	953	800	630	449	4,014
Large sites with outline permission or allocated in the Local Plan	45	88	589	1,089	1,391	1,430	4,587
Student accommodation and residential institutions	91	466	8	18	0	0	492
Small sites windfall allowance in Lincoln City			75	75	75	75	300
Small sites windfall allowance in rural area			94	94	94	94	376
Total	1,361	2,212	2,158	2,216	2,196	2,056	10,838

The five year land supply results are set out in the following table.

Table 13: Five Year Supply

o	Estimate of five year land supply	10,838	See Table 12
p	Total (year)	5.87 years	o / n

The results show that the Central Lincolnshire Authorities have sufficient land to more than meet the five year requirement of 9,228 dwellings and can demonstrate a 5.87 year supply – a surplus of 1,610 dwellings.

APPENDIX A – Ratios for Student and Other Communal Accommodation

Student Accommodation

2011 Census Data (CT0773) – Number of students in student only household

Dataset population: All student only households where all students are aged 18 or over *

Table 14: Number of students in student only households

District	All student only households	Size of student only household														
		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15+
Lincoln	1,179	325	209	224	243	88	71	7	6	1	1	1	1	0	1	1
NKDC	126	51	33	20	15	5	0	0	0	0	0	1	1	0	0	0
WLDC	101	42	27	22	9	1	0	0	0	0	0	0	0	0	0	0
Central Lincs	1,406	418	269	266	267	94	71	7	6	1	1	2	2	0	1	1

Table 14 identifies how many of each size student only households there were in Central Lincolnshire in the 2011 Census. However, in order to obtain the ratio, it is necessary to extrapolate this information to understand the total number of students in Central Lincolnshire, living in each size of student only accommodation. This is provided in Table 15, below.

Table 15: Total number of students by size of student only household

District	All student only households	Number of students living in communal accommodation of by number of students in the accommodation															Ratio	
		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15+		Total
Lincoln	1,179	325	418	672	972	440	426	49	48	9	10	11	12	0	14	15	3,421	2.90
NKDC	126	51	66	60	60	25	0	0	0	0	0	11	12	0	0	0	285	2.26
WLDC	101	42	54	66	36	5	0	0	0	0	0	0	0	0	0	0	203	2.01
Central Lincs	1,406	418	538	798	1,068	470	426	49	48	9	10	22	24	0	14	15	3,909	2.78

Table 15 demonstrates the ratio for each of the Central Lincolnshire authorities and also what the ratio would be for Central Lincolnshire as a whole. Given the differences between each of the districts (in terms of their built nature and the types of student accommodation likely to be delivered) it is proposed that, rather than taking the Central Lincolnshire average of 2.78, that the ratio for each District be applied where student accommodation is proposed.

Older Persons Accommodation

2011 Census Data (CT0774) - Age of Household Reference Person (HRP) by number of adults in household

Dataset population: All Household Reference Persons (HRPs) aged 16 or over

Table 16: Total number of households by size of household

District	Total	Size of households														
		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15+
Lincoln	39,823	16,345	18,534	3,405	1,127	259	123	11	9	4	1	2	1	0	1	1
North Kesteven	45,971	14,252	26,781	3,821	945	144	19	2	2	1	1	2	1	0	0	0
West Lindsey	38,384	12,479	21,524	3,403	823	128	19	7	1	0	0	0	0	0	0	0

Table 16 shows how many of each size household there were in the 2011 Census. As for with the students, it also needs to be extrapolated into the number of people living in each size household in order to arrive at a ratio. This is provided in Table 17 below.

Table 17: Total number of adults by household size

District	Total number of adults (aged 16 or over) by size of household																Ratio
	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	Total adults	
Lincoln	16,345	37,068	10,215	4,508	1,295	738	77	72	36	10	22	12	0	14	15	70,427	1.769
North Kesteven	14,252	53,562	11,463	3,780	720	114	14	16	9	10	22	12	0	0	0	83,974	1.827
West Lindsey	12,479	43,048	10,209	3,292	640	114	49	8	0	0	0	0	0	0	0	69,839	1.819

The average for England and Wales is also 1.8 when rounded. Therefore, as this rounded figure is being used in the HDT Rule Book and the Central Lincolnshire figures all round to this, it is proposed that a ratio of 1.8 should be applied to calculations relating to any residential institutions in Central Lincolnshire in order to calculate the amount of general market dwellings released.

APPENDIX B – Past Completions of Student Accommodation and Residential Institutions

The following permissions have been recorded as having delivered communal accommodation since 1 April 2015.

Student Accommodation

District	Application	Address	No. bedrooms delivered
City of Lincoln	2013/1297/F & 2014/0315/F	Land at Ruston Way / Tritton Road, Lincoln	519

Residential Institutions

District	Application	Address	No. bedrooms delivered
City of Lincoln	12/0297/F	Park View Care Home, St Botolph's Crescent, Lincoln	53
North Kesteven	14/1669/FUL	Kirk House, Dorrington	8
	n/a	2 Grantham Road, Sleaford	4
West Lindsey	129090	Park Lane, Burton Waters	60
	128149	The Hawthorns, 53 Station Road, Bardney	6
	131708	The Poplars, Chapman Street, Market Rasen	8
	134668	51 Station Road, Bardney	2

APPENDIX C - Details of Sites in the Five Year Supply

C1 – Small sites with planning permission (fewer than 10 dwellings)

C2 – Sites with detailed permission for major development

C3 – Sites with outline permission or sites allocated in the Local Plan

C4 - Sites with permission for student accommodation and residential institutions

C1 – Small sites with planning permission (fewer than 10 dwellings)
