Conclusions

APPENDIX A – Tables from PPG

1. Introduction

- 1.1 The National Planning Policy Framework (NPPF) requires that Local Plans should take account of climate change over the longer term, including factors such as flood risk. New development should be planned to avoid increased vulnerability and to direct development away from areas with the highest risk from flooding, and where necessary making development safe without increasing flood risk elsewhere.
- 1.2 The approach to managing development and flood risk in Local Plan site allocations seeks to ensure that development sites will be situated in areas at little or no risk of flooding, wherever possible. This sequential test ensures that flooding is taken into account in the selection of sites and ensures that developers do not waste their time promoting proposals which are inappropriate in flooding terms.
- 1.3 This sequential test has been produced in accordance with national policy and guidance and has been used (alongside other constraints and evidence) to inform the decisions on which sites to allocate in the Central Lincolnshire Local Plan.

2. National Policy and Guidance

2.1 The NPPF sets out a clear expectation that the Local Planning Authority should take full account of climate change and flood risk through the adoption of proactive strategies for mitigation and adaptation. Paragraph 161 of the NPPF states

'All plans should apply a sequential, risk-based approach to the location of development – taking into account the current and future impacts of climate change – so as to avoid, where possible, flood risk to people and property. They should do this, and manage any residual risk, by:

a) applying the sequential test and then, if necessary, the exception test as set out below

b) safeguarding land from development that is required, or likely to be required, for current or future flood management;

c) using opportunities provided by new development and improvements in green and other infrastructure to reduce the causes and impacts of flooding (making as much use as possible of natural flood management techniques as part of an integrated approach to flood risk management); and

d) Where climate change is expected to increase flood risk so that some existing development may not be suitable in the long-term, seeking opportunities to relocate development, including housing, to more sustainable locations.'

2.2 Paragraph 162 states:

'The aim of the sequential test is to steer new development to areas with the lowest risk of flooding from any source. Development should not be allocated or permitted if there are reasonably available sites appropriate for the proposed development in areas with a lower risk of flooding. The strategic flood risk assessment will provide the basis for applying this test. The sequential approach should be used in areas known to be at risk now or in the future from any form of flooding.'

2.3 Paragraph 163 states:

'If it is not possible for development to be located in zones with a lower risk of flooding (taking into account wider sustainable development objectives), the exception test may have to be applied. The need for the exception test will depend on the potential vulnerability of the site and of the development proposed, in line with the Flood Risk Vulnerability Classification set out in Annex 3.'

2.4 Paragraph 164 and 165 states:

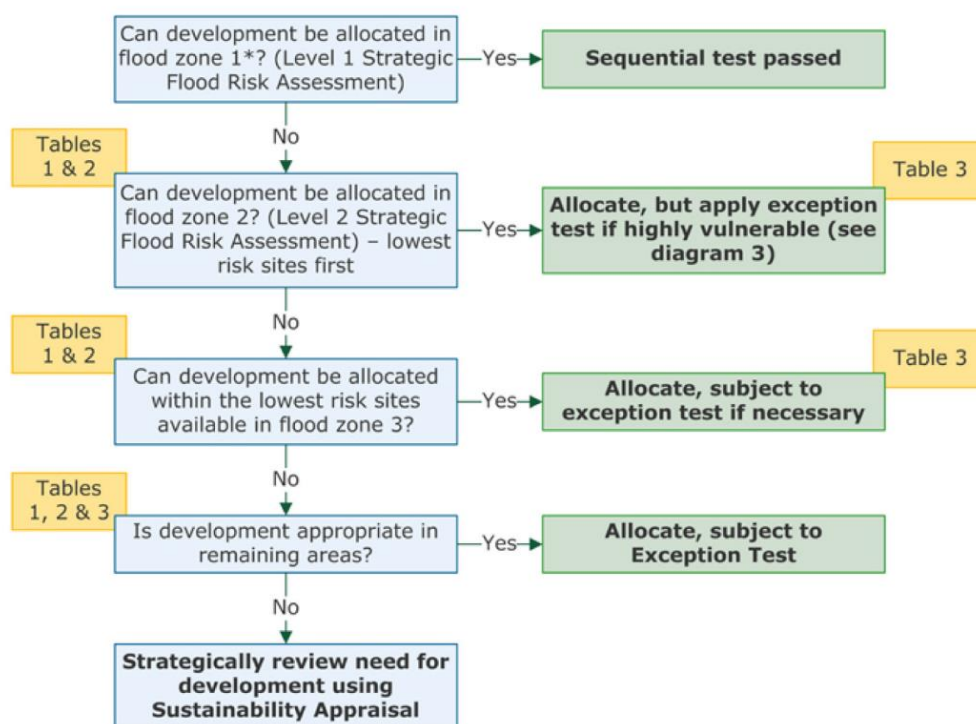

'164. The application of the exception test should be informed by a strategic or site-specific flood risk assessment, depending on whether it is being applied during plan production or at the application stage. To pass the exception test it should be demonstrated that:

a) the development would provide wider sustainability benefits to the community that outweigh the flood risk; and

b) the development will be safe for its lifetime taking account of the vulnerability of its users, without increasing flood risk elsewhere, and, where possible, will reduce flood risk overall.

165. Both elements of the exception test should be satisfied for development to be allocated or permitted.'

2.5 The National Planning Practice Guidance provides additional guidance on the implementation of this policy to guide how flooding is intended to be taken into account in the production of a Local Plan and the site allocation process. Diagram 2 of the PPG as shown below shows this process:

2.6 The tables referred to in the above diagram set out what the flood zones are (Table 1), the flood risk vulnerability classification of different uses (Table 2), and the flood risk vulnerability and flood zone 'compatibility' (Table 3). These tables are included in Appendix A of this document for reference.

2.7 Essentially the sequential test is intended to ensure that areas at little or no risk of flooding from any source are developed in preference to areas at higher risk.

3. Methodology

3.1 The methodology of the sequential test for Central Lincolnshire housing site allocations has followed the approach advised in the PPG, prioritising sites with little or no risk of flooding above sites with greater risk, and only considering sites at greater risk where no other suitable alternatives are available.

3.2 However, the sequential approach has also sought to take into account the overall strategy and distribution that are being applied in the Local Plan. The strategy and distribution elements are central to the delivery of the Local Plan and are key to delivering sustainable development.

3.3 The settlement hierarchy in the Local Plan seeks to focus growth in the most sustainable settlements in order to make the best use of existing infrastructure. Therefore sites are being allocated in sustainable areas and settlements with an appropriate level of services and facilities.

3.4 The approach to allocation of housing sites has been to select the most appropriate sites in the most sustainable settlements to meet the target growth level.

3.5 The sequential test has been broken down into the following geographical elements, with the sequential approach being applied to each sub area, to ensure that the growth targets are achieved for each area:

1. Lincoln Strategy Area:

- a. Lincoln urban area and adjoining areas (Bracebridge Heath, Canwick, North Hykeham, South Hykeham and Waddington)

2. Main Towns:

- a. Gainsborough and adjoining areas (Morton and Lea)
- b. Sleaford and adjoining areas (Kirkby La Thorpe)

3. Market Towns:

- a. Caistor
- b. Market Rasen

4. Large Villages

5. Medium and Small Villages

6. Other sites (Hamlets and Countryside)

3.6 The approach to allocating sites in the urban areas of Lincoln, Gainsborough and Sleaford includes two independent elements – the first being the allocation of suitable sites within and on the edge of the built area, and the second being the allocation of Sustainable Urban Extensions (SUEs) as key areas to deliver development on a scale to deliver

additional facilities and infrastructure to support the growing population. Both of these are important elements of the supply picture in the larger settlements but the approach to selecting and assessing these components is independent and as such have been dealt with separately in this sequential test.

4. Understanding the Sequential Test Tables

4.1 Please note the following explanations when using the tables in the sequential test:

Flood Zone column: This indicates the flood zone of the site. Where there is some flood zone 2 or flood zone 3 flood zone 1 is not mentioned.

% age of site affected: This indicates the approximate amount (if any) of the site that is in flood zone 2 or flood zone 3. Where there are proportions in both flood zone 2 and flood zone 3, Flood Zone 2 includes the area that is also within flood zone 3. Any unmentioned percentage is in flood zone 1. See example below:

Flood Zone	% of site affected
Flood Zone 2 /Flood Zone 3	40% /20%

Compatibility check: This indicates whether the proposed use is compatible with the flood zone on the site as required in the NPPG and as shown in Table 3 in Appendix A.

Reason not selected: This is a brief summary as to why a site has not been selected. It is not a substitute for the full reasoning which can be found in other evidence documents. However, it hopefully assists the reader in seeing a quick 'snap shot' as to why the site has not been selected. For the avoidance of doubt, if there is any conflict between the wording in this column, and the wording in the main evidence reports relating to why a site has not been selected, the wording in the main evidence reports should be used.

Surface Water Flood Risk: Whilst the tables below do not include a column for flood risk from other sources, such as surface water flooding, the risk from these other sources has been considered. Where risk from surface water flooding is considered to be manageable through design layout and use of Sustainable Drainage Systems (SuDS) details are not necessarily included in this assessment, but this would be expected to be included in support of a planning application. Where the risk from surface water flooding is expected to have potential to constrain the delivery of a site, commentary is included in the last column of each table.

Applying the Sequential Test to Residential Allocations

According to Table 2: Flood Risk Vulnerability Classification (see appendix A) residential development is classified as 'more vulnerable' and Table 3: Flood risk vulnerability and flood zone 'compatibility' (appendix A) highlights that 'more vulnerable' uses are compatible with flood zones 1 and 2, that an exception test is required where a site is in flood zone 3a and that it is incompatible with zone 3b.

Lincoln Strategy Area

Lincoln is the most sustainable settlement in Central Lincolnshire and is the focus for development within the Lincoln Strategy Area.

Lincoln Urban Area – Preferred Allocations									
Ref	Name	Area (ha)	No. of dwellings	Flood Zone	% of site affected	Compatibility check	Sequential Test Passed	Exception Test Needed	Comments
COL/ABB/001	North East Quadrant, Land at Greetwell area, Lincoln	82.94	1400	Flood Zone 1	n/a	Compatible	Yes	No	There are areas at low, medium and high risk of surface water flooding, but this could be dealt with through design and layout. Part of this site has planning permission.
COL/ABB/002	Former Main Hospital Complex, St Anne's Road, Lincoln	0.98	50	Flood Zone 1	n/a	Compatible	Yes	No	There are areas at low, medium and high risk of surface water flooding, but this could be dealt with through design and layout.
COL/BIRCH/001	Land at Birchwood, Lincoln	1.86	49	Flood Zone 1	n/a	Compatible	Yes	No	There are areas at low and medium risk of surface water flooding, but this could be dealt with through design

									and layout. The site has planning permission.
COL/BOU/001	Western Growth Corridor	390.70	3200	Flood Zone 2 / Flood Zone 3	85% / 90%	Not compatible	No	Yes	The majority of this site is in flood zones 2 and 3 and there are areas at low, medium and high risk of surface water flooding. This site is a Sustainable Urban Extension and has been part of an ongoing dialogue between the Environment Agency and the Local Plan Team/City of Lincoln. Work to identify mitigation and other sustainability benefits will be included with the submission version. Planning permission has been granted for this site.
COL/BOU/002	Monson Arms, Skellingthorpe Road, Lincoln	0.27	10	Flood Zone 1	n/a	Compatible	Yes	No	The site has been granted planning permission.

COL/BOU/003	Former Victory Public House, Boultham Park Road, Lincoln	0.27	14	Flood Zone 2 / Flood Zone 3	100% / 100%	Not compatible	No	No	The site is entirely within flood zone 2 and 3. The site is brownfield land and has been granted planning permission.
COL/CAR/004	Church at Long Leys Road, Lincoln	0.46	10	Flood Zone 1	n/a	Compatible	Yes	No	The site has been granted planning permission.
COL/CAR/005	128-130 Carholme Road, Lincoln	0.08	14	Flood Zone 2	100%	Not compatible	No	No	The site is entirely within flood zone 2. The site is brownfield land and has been granted planning permission.
COL/CAS/001	Land north of Ermine West (Queen Elizabeth Road), Lincoln	13.54	143	Flood Zone 1	n/a	Compatible	Yes	No	There are areas at low and medium risk of surface water flooding, but this could be dealt with through design and layout
COL/GLE/001	Land off Wolsey Way, Lincoln	1.08	14	Flood Zone 1	n/a	Compatible	Yes	No	The site has been granted planning permission.
COL/MIN/001	Roman Gate 2, Land off Flavian Road, Lincoln	2.17	60	Flood Zone 1	n/a	Compatible	Yes	No	The site has areas to the northern edge that are risk of surface water flooding.

COL/MIN/003	Romangate Development, land at Nettleham Road, Lincoln	6.36	104 (remaining)	Flood Zone 1	n/a	Compatible	Yes	No	The site has areas to the southern edge that are risk of surface water flooding. The site is currently under construction.
COL/MIN/005	Land at Cathedral Quarry, Riseholme Road, Lincoln	2.74	40	Flood Zone 1	n/a	Compatible	Yes	No	Parts of the site are at risk of surface water flooding.
COL/MIN/006	Land west of Nettleham Road, Lincoln	1.17	39	Flood Zone 1	n/a	Compatible	Yes	No	There are areas at low and medium risk of surface water flooding, but this could be dealt with through design and layout
COL/MOOR/001	Land north of Hainton Road, Lincoln	1.14	40	Flood Zone 2	6%	Compatible	Yes	No	Extent of flood risk along western edge of site and not expected to impact suitability of site. There are areas at low, medium and high risk of surface water flooding, but this could be dealt with through design and layout.
NK/AUB/001A	Land south of Thorpe Lane, South Hykeham	5.20	144	Flood Zone 1	n/a	Compatible	Yes	No	The site has been granted planning permission.

NK/CAN/003	South East Quadrant, Canwick Heath	464.99	Up to 3400	Flood Zone 1	n/a	Compatible	Yes	No	There are areas at low and medium risk of surface water flooding, but this could be dealt with through design and layout
NK/NHYK/001	South West Quadrant, Land at Grange Farm, Lincoln	133.52	1433	Flood Zone 2	7%	Compatible	Yes	No	There are areas at low and medium risk of surface water flooding, and a small proportion of the site within Flood Zone 2, but this could be dealt with through design and layout
NK/WAD/004A	Land south of Station Road, Waddington Lowfields	10.70	321	Flood Zone 1	n/a	Compatible	Yes	No	There are areas at low and medium risk of surface water flooding, but this could be dealt with through design and layout
NK/WAD/025	Land off Palm Road, Brant Road, Waddington	1.06	20	Flood Zone 2	5%	Compatible	Yes	No	A small area of the site falls within Flood Zone 2. The site has been granted planning permission.
WL/NHAM/001	Nettleham Road, Lincoln Fringe	3.78	76 (remaining)	Flood Zone 1	n/a	Compatible	Yes	No	Parts of the site area at risk of surface water flooding

WL/NHAM/033	Land north of Wolsey Way, Lincoln	16.56	173 (remaining)	Flood Zone 1	n/a	Compatible	Yes	No	Parts of the site area at risk of surface water flooding
WL/RISE/001	Land off Millbeck Drive, Lincoln	1.00	46	Flood Zone 1	n/a	Compatible	Yes	No	There are areas at risk of surface water flooding, but this could be dealt with through design and layout

Lincoln Strategy Area – Rejected sites						
Ref	Name	Area (ha)	No. of dwellings	Flood Zone	% of site affected	Comments
COL/ABB/003	Former Cegb Power Station, Spa Road, Lincoln, LN2 5TB	5.71	300	Flood Zone 2 / Flood Zone 3	50% / 75%	The site was previously allocated for housing. Proposed to be allocated as a Regeneration Area.
COL/BR/001	Land rear of 2151-237 Calder Road, Lincoln	0.43	15	Flood Zone 2 / Flood Zone 3	75% / 5%	The site is within Flood zone 2 and is within the Green Wedge.
COL/BR/002	Land at 6 Rivermead Close	0.14	5	Flood Zone 1	n/a	The site would be unlikely to deliver 10 or more dwellings. Located within the Green Wedge.
COL/CAR/001	Farmland North of Long Leys Road	46.47	1115	Flood Zone 2 / Flood Zone 3	28% / 22%	The site is partially within Flood zone 2 and 3 and located outside of the bypass, detached from other built areas of the settlement.
COL/CAR/002	Farmland South of Long Leys Road	21.11	507	Flood Zone 2	30%	The site is within flood zone 2 and detached from other built areas of the settlement. The site is at risk of surface water flooding.

COL/MIN/004	Land off Lee Road, Lincoln	2.56	77	Flood Zone 1	n/a	The site is within flood zone 1. It is an area of important open space within the built footprint.
COL/PAR/023	Former Canwick Golf Course	4.80	144	Flood Zone 1	n/a	The site is within flood zone 1. There are parts of the site at risk of surface water flooding. The site is detached from other built development.
COL/PAR/024	Land rear of Newark Road, Lincoln	1.14	150	Flood Zone 2 / Flood Zone 3	100% / 33%	Deallocated site, planning permission lapsed, delivery issues and constrained by access and flood risk.
NK/AUB/001	Land at Thorpe Lane, South Hykeham	8.53	144	Flood Zone 1	n/a	Extends close to the strategic road network.
NK/BBH/001	Land at Urban Street, Bracebridge Heath	4.24	127	Flood Zone 1	n/a	Loss of open space and access constraints.
NK/BBH/002	Land to the west of Cross O'Cliff Court, Bracebridge Heath	34.67	832	Flood Zone 1	n/a	Within the green wedge.
NK/NHYK/001a	Boundary Lane, South Hykeham	6.40	192	Flood Zone 2	5%	Part of a larger site
NK/NHYK/001b	Fields off Boundary Lane, South Hykeham	17.33	520	Flood Zone 2	8%	Part of a larger site
NK/NHYK/001c	Land to the rear of Somersby Manor off Mill Lane, North Hykeham	10.46	314	Flood Zone 2	8%	Part of a larger site
NK/NHYK/002	Land at Richmond Lakes, North Hykeham	27.15	652	Flood Zone 1	n/a	Constrained by Local Wildlife Site and loss of open space.
NK/NHYK/003	Land off 437/439 Newark Road, North Hykeham	8.54	256	Flood Zone 1	n/a	Constrained by Local Wildlife Site and loss of open space.
NK/NHYK/009	Land east of Station Road, adjacent Hykeham Station	6.72	202	Flood Zone 1	n/a	Constrained by loss of open space.
NK/TOTH/003	Land on the side of A46, between Thorpe Lane & Lincoln Lane, Thorpe on the Hill	14.88	335	Flood Zone 1	n/a	Detached from settlement by bypass.
NK/WAD/001	Land to rear of 320 - 378 Brant Road, Waddington	3.35	101	Flood Zone 2	27%	Located within the green wedge.

NK/WAD/002	Land to rear of 382 - 418 Brant Road, Waddington	3.85	115	Flood Zone 2	11%	Located within the green wedge.
NK/WAD/003	Land off Washdyke Lane, Brant Road, Waddington	2.80	84	Flood Zone 1	n/a	Located within the green wedge.
NK/WAD/005	Land adjacent 127 - 165 Station Road, Waddington	2.14	64	Flood Zone 1	n/a	Part of a larger site
NK/WAD/011	Land off Griffins Lane, Station Road, Waddington	6.65	200	Flood Zone 1	n/a	Detached from settlement, within green wedge.
NK/WAD/012	Four Acres, Land to the West of 67 Station Road, Waddington	1.43	49	Flood Zone 1	n/a	Within the green wedge.
NK/WAD/018	Land to the east of Larne Road and Hollywell Road, Waddington	44.29	1063	Flood Zone 1	n/a	Within the green wedge.
NK/WAD/027	Land to the rear of 312 Brant Road, Waddington	1.92	65	Flood Zone 2/ Flood Zone 3	43%/ 7%	Within the green wedge and partially within Flood Zone 2 and 3
WL/NHAM/019	Land north of A158 and east of A46, Lincoln	42.40	1018	Flood Zone 1	n/a	Detached from the settlement by the bypass, within green wedge.
WL/NHAM/021	Land north of A158, north east of Wragby Road East, Nettleham	15.89	358	Flood Zone 1	n/a	Detached from the settlement by the bypass, within green wedge.
WL/NHAM/022	Land south of A158, east of Lilford Road,	1.20	41	Flood Zone 1	n/a	Detached from the settlement by the bypass, within green wedge.

Main Towns

Gainsborough - Preferred Allocations (including Morton and Lea)									
Ref	Name	Area (ha)	No. of dwellings	Flood Zone	% of site affected	Compatibility check	Sequential Test Passed	Exception Test Needed	Comments
WL/GAIN/001	Gainsborough Northern Neighbourhood SUE	128.87	750	Flood Zone 1	n/a	Compatible	Yes	No	There are quite large areas at low, medium and high risk of surface water flooding, but given the overall site size, this could be dealt with through design and layout.
WL/GAIN/003	Land south of the Belt Road, Gainsborough, DN21 1HN	3.39	80	Flood Zone 1	n/a	Compatible	Yes	No	This site has been granted planning permission.
WL/GAIN/005	Riverside North Housing Zone, Gainsborough	4.29	138	Flood Zone 2 / Flood Zone 3	100%	Not compatible	No	Yes	This site is the subject of an LDO. Most of the site is within flood zones 2 and 3 and there are some areas at low, medium and high risk of surface water flooding across the site. LDOs will be subject to flood risk assessments as part of the process. The site has been granted planning permission.

WL/GAIN/007	Land west of The Avenue, Gainsborough	2.87	43	Flood Zone 1	n/a	Compatible	Yes	No	
WL/GAIN/008	Land west of Horsley Road, Gainsborough	2.03	49	Flood Zone 2 / Flood Zone 3	100% / 100%	Not compatible	No	Yes	The site is within Flood zone 2 and 3 but does benefit from flood defences. The site has been granted planning permission.
WL/GAIN/013	Former Middlefield School, Middlefield Road, Gainsborough	7.26	95	Flood Zone 1	n/a	Compatible	Yes	No	The site has planning permission and is under construction.
WL/GAIN/014	Former Environment Agency Office, Corringham Road, Gainsborough	1.15	34	Flood Zone 1	n/a	Compatible	Yes	No	
WL/GAIN/015	Gainsborough Southern Neighbourhood SUE (Land at Foxby Lane, Gainsborough)	140.45	2500	Flood Zone 2 / Flood Zone 3	2% / 2%	Partially not compatible	No	Yes	A very small area of the site is within Flood Zone 2 and 3. This can be addressed through design and layout.
WL/GAIN/019	Gainsborough Riverside Gateway	4.04	220	Flood Zone 2 / Flood Zone 3	90% / 88%	Not compatible	No	Yes	The site is within Flood zone 2 and 3 but does benefit from flood defences. The site has been granted planning permission.
WL/GAIN/020	AMP Rose site, Heapham Road, Gainsborough	2.28	78	Flood Zone 1	n/a	Compatible	Yes	No	

WL/GAIN/021	Former Castle Hills Community College site, The Avenue, Gainsborough	4.94	112	Flood Zone 1	n/a	Compatible	Yes	No	The site has planning permission
WL/GAIN/022	Former Ropery Inn, 202 Ropery Road, Gainsborough	0.11	14	Flood Zone 2 / Flood Zone 3	100% / 100%	Not compatible	Yes	No	The site is within Flood zone 2 and 3 but does benefit from flood defences. The site has been granted planning permission.
WL/GAIN/023	The Maltings, 2B Lea Road, Gainsborough	0.16	15	Flood Zone 2 / Flood Zone 3	70% / 65%	Partially not compatible	No	Yes	The site is partially within Flood zone 2 and 3 but does benefit from flood defences. The site is a brownfield site that has been granted planning permission.
WL/GAIN/024	Land to the rear of 227 - 257 Lea Road, Gainsborough	0.52	16	Flood Zone 1	n/a	Compatible	Yes	No	The site has been granted planning permission.
WL/GAIN/025	Land at The Beckett School, Whites Wood Lane, Gainsborough	0.64	15	Flood Zone 1	n/a	Compatible	Yes	No	Areas of the site are at risk of surface water flooding. The site has been granted planning permission.
WL/GAIN/026	Land at Marshalls Rise, Gainsborough	0.66	39 (remaining)	Flood Zone 1	n/a	Compatible	Yes	No	The site has been granted planning permission and is partially built.
WL/LEA/003	Land south of Willingham Road, Lea, Gainsborough	3.04	61	Flood Zone 1	n/a	Compatible	Yes	No	There is a small area at risk of surface water flooding. Under

								construction, nearing completion.
--	--	--	--	--	--	--	--	-----------------------------------

Gainsborough – Rejected sites (includes Morton and Lea)						
Ref	Name	Area (ha)	No. of dwellings	Flood Zone	% of site affected	Comments
WL/GAIN/002	Lock up Garages, Spital Hill, Gainsborough	0.14	5	Flood Zone 1	n/a	The site is within flood zone 1. Unlikely to deliver 10 or more dwellings.
WL/GAIN/004	The Depot, North Warren Road, Gainsborough	0.88	26	Flood Zone 2 / Flood Zone 3	100%	The site is within Flood zone 2 and 3. Previously allocated, proposed to deallocate as a housing site.
WL/GAIN/009	West of Primrose Street, Gainsborough	2.22	58	Flood Zone 2 / Flood Zone 3	100%	The site is within Flood zone 2 and 3. The site was previously allocated for housing. Proposed to be allocated as a Regeneration Area.
WL/GAIN/010	Town Centre Riverside Housing Zone a, Gainsborough	1.72	73	Flood Zone 2 / Flood Zone 3	98%	The site is within Flood zone 2 and 3. The site was previously allocated for housing. Proposed to be allocated as a Regeneration Area.
WL/GAIN/011	Town Centre Riverside Housing Zone b, Gainsborough	1.56	67	Flood Zone 2 / Flood Zone 3	32%	The site is within Flood zone 2 and 3. The site was previously allocated for housing. Proposed to be allocated as a Regeneration Area.
WL/GAIN/012	Land south east of Dunstall Walk, Gainsborough	1.54	46	Flood Zone 1	n/a	The site is within flood zone 1. Part of the site is at risk of surface water flooding.
WL/GAIN/018	Highfield House and Roan House, Summer Hill, Gainsborough	3.05	80	Flood Zone 1	n/a	The site is within flood zone 1. Constrained by woodland and TPO's.
WL/LEA/001	Land west of Moor House, Lea	45.74	823	Flood Zone 2 / Flood Zone 3	90% / 93%	The site is detached from the main settlement and is located within Flood zone 2 and 3.
WL/LEA/002	Lea Estate Farm, Gainsborough Road, Lea	14.27	214	Flood Zone 2 / Flood Zone 3	30% / 33%	The site is partially within flood zone 2 and 3.

WL/LEA/002A	Lea Estate Farm, Gainsborough Road, Lea	1.15	20	Flood Zone 1	n/a	The site is constrained by a Local Wildlife Site. Other sites preferred.
WL/LEA/004	Land off Willingham Road, Lea	0.52	9	Flood Zone 1	n/a	The site is detached from the main settlement.
WL/LEA/005	Land adjacent to Lea Wood, Lea	44.92	539	Flood Zone 1	n/a	Area of the site are at risk of surface water flooding. Detached from the settlement.
WL/LEA/006	Land east of Gainsborough Road, Lea	8.24	124	Flood Zone 1	n/a	In the green wedge.
WL/MOR/001	South East Side, Field Lane, Morton, Gainsborough	0.29	9	Flood Zone 2 / Flood Zone 3	100%	The site is entirely within flood zone 2 and 3.
WL/MOR/002	Land north of Mill Lane, east of Granary Close, Morton	3.15	47	Flood Zone 2 / Flood Zone 3	100%	The site is entirely within flood zone 2 and 3.
WL/MOR/003	Land to south-west of Walkerith Road and west of Nursery Vale, Morton	4.95	74	Flood Zone 2 / Flood Zone 3	100%	The site is entirely within flood zone 2 and 3.

Sleaford - Preferred Allocations									
Ref	Name	Area (ha)	No. of dwellings	Flood Zone	% of site affected	Compatibility check	Sequential Test Passed	Exception Test Needed	Comments
NK/KIRK/004	Former Hoplands Depot, Sleaford	1.83	37	Flood Zone 1	n/a	Compatible	Yes	No	There are areas at low and medium risk of surface water flooding, but this could be dealt with through design and layout.

NK/SLEA/002	Land to the East of CL1013, Poplar Farm, South of A17, Sleaford (Part A)	25.50	315	Flood Zone 2 / Flood Zone 3	38% / 32%	Partly not compatible	No	Yes	Central parts of this site are in flood zones 2 and 3 and there are some small areas at low risk of surface water flooding. Part of the site meets the sequential test.
NK/SLEA/014	Sleaford south SUE	59.82	1450	Flood Zone 1	n/a	Compatible	Yes	No
