# **Let's Move North Kesteven**

## Introduction

The 'Let's Move North Kesteven' Action Plan targets the aims and objectives of a number of key corporate strategies.

The NK Plan 2023-26 has a clear purpose, to create a prosperous, sustainable District, supported by effective & efficient public services that deliver local priorities and meet the challenges of both climate change and economic uncertainty. The plan sets out the councils five corporate priorities of 'Our Communities', 'Our Economy', 'Our Homes' and 'Our Council'. Amongst our many ambitions, the council places significant focus on 'Promoting healthy lifestyles by providing a range of leisure and cultural opportunities'. This ambition feeds into a number of key strategies which inform this district plan.

The North Kesteven Sport and Physical Activity Strategy 2022-27 has a clear vision of inspiring everyone to be more active, more often. Whilst acknowledging Sport England's 'Uniting the Movement', the strategy details four overachieving objectives in line with the World Health Organisations themes of Active Society, Active People, Active Place and Active Systems. Revised KPI's form an integral part of the Councils contractual management arrangements with our leisure partners.

The Council recognises the wide-ranging benefits and positive impact that cycling can have on physical activity and in 2018 developed and approved the North Kesteven Cycling Strategy. The strategy highlights three priority outcomes; 1.) Increasing resident's awareness of cycling and its associated health, wellbeing and environmental benefits, 2.) To promote safer cycling in North Kesteven, and 3.) To develop infrastructure and provide more opportunities to Cycle in North Kesteven. These outcomes are designed to support 'A district where everyone is inspired to cycle'.

In 2018, the Council also developed and approved our first Open Space Strategy. We recognise that high quality and accessible open spaces are essential to the success of the above strategies, and we aim to use all three strategies to deliver a 'healthy, fit and vibrant NK'.

In 2020, North Kesteven's Our Community Strategy and ten-year vision tackles the 17 UN Sustainable Development goals with Goal 3: Good Health & Wellbeing addressed within this action plan by increasing participation in physical activity.

This action plan provides a high-level summary of proposed actions by the Council and our local delivery partners.

#### Let's Move North Kesteven Strategic Goals

1. Active Society - Reducing inactivity and promoting health weight across North Kesteven.

#### **Anticipated Outcomes:**

NK residents will, regardless of age, ability or background, understand the benefits of a more active lifestyle. Residents will have the opportunity to participate in regular sport and physical activity, leading to a healthier, fitter and happier NK.

2. Active People - Engaging with specific groups - North Kesteven's priority groups for physical activity are specified as Children & Young People, Older People and Residents with a limiting conditions or disability.

#### **Anticipated Outcomes:**

Reducing inequalities will help create healthy and sustainable community activity levels, strengthen the role and impact of ill health prevention and encourage children to maintain an active start to life.

3. Active Place - Levelling up by engaging with specific localities to improve community cohesion through sport and physical activity.

### **Anticipated Outcomes:**

Development of new and sustainable community programmes that reduce inequalities, social isolation and barriers to physical activity in North Kesteven, all of which are positively impacted by increases in active travel.

4. Active Systems - Delivering high quality, high performing leisure facilities and services, including online and virtual exercise opportunities.

#### **Anticipated Outcomes:**

Delivery of high performing, high satisfaction and financially sustainable public leisure facilities. We will aim to recover from the impacts of Covid-19 and reinvent public leisure services fit for future generations.

| Priority | Objective   | Owner & Support   | Narrative   | Focus Area                   | Risks                                    | Interdependencies                                | Progress &<br>Status (RAG) |
