Any other report/survey from the Central Lincolnshire 'full' validation checklist relevant to the scale, nature and location of development	

¹ All plans or drawings must be drawn to the identified scale, and in the case of plans, must show the direction of north. A linear scale bar must also be illustrated, and plans must also clearly annotate key dimensions including as a minimum building/structure external length, width and height (eaves and ridge) and the externally measured separation distance/s between those building/s and structure/s closest to the application site boundary and the site boundary itself. All measurements must be in metres. A location plan must be based on an up-to-date map and must identify sufficient roads and/or buildings on land adjoining the application site to ensure that the exact location of the application site is clear. The application site should be edged clearly with a red line on the location plan. It should include all land necessary to carry out the proposed development (e.g. land required for access to the site from a public highway, visibility splays, landscaping, car parking and open areas around buildings). A blue line should be drawn around any other land owned by the applicant, close to or adjoining the application site.
